

100 Questions

Que. 1 The accessory structure in the fetal circulation which connects the umbilical vein to the inferior vena cava is called:

1. Foramen ovale
2. Ligamentum venosum
3. Ductus venous
4. Ductus arteriosus

Correct Option - 3

Que. 2 Which of the following legal acts of nursing is coming under Negligence?

1. Failing to report a change in patient's condition
2. Invasion of privacy of patients
3. False documentation
4. Medication error

Correct Option - 4

Que. 3 Which of the following antitubercular drug causes peripheral neuropathy?

1. Isoniazid
2. Pyrazinamide
3. Rifampicin
4. Dapsone

Correct Option - 1

Que. 4 Which among the following is a Health promotion nursing diagnosis?

1. Hyperthermia
2. Impaired memory
3. Risk of falls
4. Readiness for enhanced self once

Correct Option - 4

Que. 5 The ethical principle which states that the individuals are answerable for their action and have the obligation to act is:

1. Accountability
2. Responsibility
3. Fidelity
4. Veracity

Correct Option - 1

Que. 6 Calculate the MODE value from the following distribution:

50, 51, 51, 52, 53, 53, 53, 53, 54, 55

1. 54
2. 53
3. 52
4. 51

Correct Option - 2

Que. 7 Which among the following is a type of Non probability sampling?

1. Systematic sampling
2. Stratified random sampling
3. Purposive sampling
4. Multistage cluster sampling

Correct Option - 3

Que. 8 Which among the following is a Gram positive organism?

1. Clostridium botulinum
2. Klebsiella pneumoniae
3. Pseudomonas aeruginosa
4. Acinetobacter baumannii

Correct Option - 1

Que. 9 Which among the following is the true statement regarding ASHA worker?

1. ASHA worker can conduct safe deliveries
2. ASHA worker supervises the activities of anganwadi worker
3. One ASHA worker for 400-800 population
4. A woman with a formal education up to 8th class

Correct Option - 4

Que. 10 Which among the following statements is true about Administration?

1. Determination of major policies
2. Concerned with direction of human efforts at the operational level
3. Applicable at lower levels of management
4. Main focus on getting the work done

Correct Option - 1

Que. 11 Which among the following statements is correct regarding first heart sound?

1. Produced due to simultaneous closure of both the atrioventricular valves
2. Produced due to the simultaneous closure of both semilunar valves
3. Appears between 'T' and 'P' waves of ECG
4. Coincide with the 'T' wave in ECG

Correct Option - 1

Que. 12 Which among the following hormone is secreted by pituitary gland?

1. Calcitonin
2. Glucocorticoids
3. Glucagon
4. Prolactin

Correct Option - 4

Que. 13 Which among the following is an indicator of the prevalence of contraceptive practice in the community?

1. Couple protection rate
2. General fertility rate
3. Small family norm
4. Gross reproduction rate

Correct Option - 1

Que. 14 A true experimental design in research is characterized by the following properties, except:

1. Randomization
2. Manipulation
3. Hawthorne effect
4. Control

Correct Option - 3

Que. 15 An irregular, acyclic bleeding from the uterus is known as:

1. Polymenorrhea
2. Metrorrhagia
3. Oligomenorrhea
4. Menorrhagia

Correct Option - 2

Que. 16 Which function of the pancreas increases the release of bile from the gallbladder into the intestine?

1. Choloretic action
2. Hydrotropic effect
3. Cholagogue action
4. Emulsification

Correct Option - 3

Que. 17 Which position is mostly recommended for rectal examination?

1. Lithotomy position
2. Dorsal recumbent position
3. Sims position
4. Prone position

Correct Option - 3

Que. 18 The principle of hemodialysis in which the water is moving under high pressure to an area of lower pressure is:

1. Ultrafiltration
2. Osmosis
3. Diffusion
4. Perfusion

Correct Option - 1

Que. 19 An obstruction of blood flowing from the left atrium into the left ventricle is known as:

1. Aortic regurgitation
2. Aortic stenosis
3. Mitral stenosis
4. Mitral regurgitation

Correct Option - 3

Que. 20 The involuntary loss of urine through an intact urethra as a result of sudden increase in the intraabdominal pressure is called:

1. Overflow incontinence
2. Reflex incontinence
3. Stress incontinence
4. Urge incontinence

Correct Option - 3

Que. 21 Meaningless and incoherent mixture of words and phrases is termed as:

1. Word salad
2. Paralalia
3. Verbigeration
4. Neologism

Correct Option - 1

Que. 22 The forward bending of the uterus in relation to the vagina is called:

1. Anteflexion
2. Plantar flexion
3. Anteversion
4. Dorsiflexion

Correct Option - 3

Que. 23 The statement of predicted relationship between two or more variables are termed as:

1. Triangulation
2. Assumptions

3. Hypothesis
4. Reliability

Correct Option - 3

Que. 24 An approach of literature review in which the researcher refers the studies with more limited distribution such as conference papers and unpublished reports is known as:

1. Ancestry approach
2. Bibliographic databases
3. Descendancy approach
4. Gray literature

Correct Option - 4

Que. 25 Which type of communication barrier is related to 'poor pronunciation of the teacher'?

1. Organizational barrier
2. Physical barrier
3. Mechanical barrier
4. Semantic barrier

Correct Option - 4

Que. 26 Which type of isolation precaution is used for a client with measles?

1. None of these
2. Contact precaution
3. Airborne precaution
4. Protective environment

Correct Option - 3

Que. 27 What does the inner triangle in the symbol of under five clinic denotes?

1. Family planning
2. Health education
3. Preventive care
4. Growth monitoring

Correct Option - 1

Que. 28 Health care team obtains permission from the patient before proceeding with the surgery. The ethical principle that describes this act is called:

1. Accountability
2. Non-maleficence
3. Beneficence
4. Respect for autonomy

Correct Option - 4

Borborygmi refers to:

Que. 29 Vascular sounds in the abdomen

2. Peristalsis movements in the abdomen
3. Hyperactive bowel sounds
4. Absence of bowel sounds

Correct Option - 3

Que. 30 What is the technique used to demonstrate the relationship between the intravesical pressure and the volume of urine in the bladder?

1. Cystoscopy
2. Cystometry
3. Pyelogram
4. Ureteroscopy

Correct Option - 2

Que. 31 What is the average lifespan of Red blood cells?

1. 250 days
2. 180 days
3. 50 days
4. 120 days

Correct Option - 4

Que. 32 What is the drug of choice for Thalassemia?

1. Vincristine
2. Vinblastine
3. Dilantin
4. Deferoxamine

Correct Option - 4

Que. 33 What is the therapeutic blood lithium level in the body?

1. 1-3 mEq
2. 2-4 mEq
3. 0.8-1.2 mEq
4. 0.1-1 mEq

Correct Option - 3

Que. 34 What is the normal Intracranial pressure?

1. 20-30 mm Hg
2. 30-40 mm Hg
3. 5-15mm Hg
4. 0-10mm Hg

Correct Option - 3

Que. 35 What is the characteristic feature of biliary colic?

1. Midepigastric pain that radiates to the back
2. Upper right abdominal pain that radiates to the back or right shoulder
3. Localized lower right abdominal pain
4. Localized pain in the hypogastric region

Correct Option - 2

Que. 36 What is the main purpose of ABC analysis in material management?

1. To control purchasing
2. To control inventories
3. To control obsolescence
4. To determine stocking

Correct Option - 2

Que. 37 What is the scoring system to estimate the gestational age of a newborn by maturity rating?

1. BIND score
2. Apgar score
3. Downes score
4. New Ballard score

Correct Option - 4

Que. 38 What is the meaning of Talipes equinus?

1. Plantar flexion of ankle and foot
2. An inversion of ankle and foot
3. Dorsiflexion of ankle and foot
4. An eversion of ankle and foot

Correct Option - 1

Que. 39 What is the causative organism for Syphilis?

1. Treponema pallidum
2. Chlamydia trachomatis
3. Cytomegalovirus
4. Human papillomavirus

Correct Option - 1

Que. 40 What is the route of administration of Rota virus vaccine?

1. Intramuscular
2. Subcutaneous
3. Intradermal
4. Oral

Correct Option - 4

Que. 41 An inflammation of oral mucosa is termed as:

1. Gingivitis
2. Stomatitis
3. Glossitis
4. Cheilosis

Correct Option - 2

Que. 42 Presence of currant jelly stools are the characteristic feature of:

1. Hirschsprung's disease
2. Pyloric stenosis
3. Tracheoesophageal fistula
4. Intussusception

Correct Option - 4

Que. 43 An educational technique in which people spontaneously act out problems of human relations is known as:

1. Group discussion
2. Puppet show
3. Role play
4. Symposium

Correct Option - 3

Que. 44 Dark purplish discoloration and congestion of vulva and vaginal mucous membrane is termed as:

1. Hegar's sign
2. Chadwich's sign
3. Oslander's sign
4. Goodell's sign

Correct Option - 2

Que. 45 The entire aggregation of cases in which a researcher is interested is called:

1. Population
2. Group
3. Strata
4. Sample

Correct Option - 1

Que. 46 The foundation of research is based on which of the following?

1. Scientific method
2. Critical thinking
3. Experience
4. Evidence

Correct Option - 1

Que. 47 'Sequestration crisis' is related to:

1. Pernicious anemia
2. Sickle cell anemia
3. Alpastic anemia
4. Iron deficiency anemia

Correct Option - 2

Que. 48 An occurrence in which umbilical cord vessels pass through the placental membranes and lie across the cervical os is termed as:

1. Abruptio placenta
2. Placenta previa
3. Placenta accreta
4. Vasa previa

Correct Option - 4

Que. 49 The term 'Mittelschmerz' refers to:

1. Varying degrees of abdominal pain during ovulation
2. Pelvic girdle pain during pregnancy
3. Lower abdominal cramps during menstruation
4. Intermittent uterine contractions during labor

Correct Option - 1

Que. 50 What type of pelvis is good for child bearing?

1. Gynecoid
2. Anthropoid
3. Android
4. Platypoid

Correct Option - 1

Que. 51 Statistical hypothesis are otherwise known as:

1. Directional hypothesis
2. Research hypothesis
3. Null hypothesis
4. Non-directional hypothesis

Correct Option - 3

Que. 52 Which variable is manipulated in experimental research?

1. Independent variable
2. Dependent variable
3. Outcome variable

4. Criterion variable

Correct Option - 1

Que. 53 Which regulatory board of nurses is responsible to prescribe syllabus and regulations for nursing programmes?

1. Exam boards and universities
2. State Nursing Council
3. Indian Nursing Council
4. Trained Nurses Association of India

Correct Option - 3

Que. 54 The unpredicted effect of medication in which a client overacts or underacts to a medication is termed as:

1. Idiosyncratic reactions
2. Allergic reactions
3. Toxic effects
4. Side effects

Correct Option - 1

Que. 55 Yellow bags for segregation of biomedical waste is meant for:

1. Urine bags
2. Cytotoxic waste
3. Needles
4. Anatomical waste

Correct Option - 4

Que. 56 The following are the principles of health education, except:

1. Unknown to known
2. Comprehension
3. Credibility
4. Interest

Correct Option - 1

Que. 57 Which of the following are indications for electroconvulsive therapy, except:

1. Major depression
2. Severe psychosis
3. Severe catatonia
4. Post-traumatic stress disorder

Correct Option - 4

Que. 58 The following are the contraindications of induction of labor, except:

1. Premature rupture of membrane

2. Placenta previa
3. Cephalopelvic disproportion
4. Cord prolapse

Correct Option - 1

Que. 59 The following are the characteristics of fetal umbilical cord, except:

1. Umbilical cord has sensory nerve endings
2. Umbilical cord contains two arteries and one vein
3. Umbilical cord is enclosed and protected by Wharton's jelly
4. Umbilical cord transports oxygen and nutrients to the developing fetus

Correct Option - 1

Que. 60 Which of the following is an example of Hinge joint?

1. Wrist joint
2. Radioulnar joint
3. Shoulder joint
4. Elbow joint

Correct Option - 4

Que. 61 Which of the following conditions is NOT involved in croup syndrome?

1. Tonsillitis
2. Epiglottitis
3. Bronchitis
4. Laryngitis

Correct Option - 1

Que. 62 Which of the following statements is not true about Associative play?

1. Children are involved in the identical activity
2. Children borrow and lend play articles
3. Mutual goal is set
4. No establishment of rules regarding the limits of play session

Correct Option - 3

Que. 63 Which of the following statements is correct regarding Microteaching?

1. Time duration is 45-60 minutes
2. The role of supervisor is vague
3. Student teacher practices only one selected skill
4. Feedback is not immediately provided

Correct Option - 3

Que. 64 Which ophthalmic diagnostic test measures the Intraocular pressure?

1. Tonometry
2. Perimetry
3. Gonioscopy
4. Amsler grid

Correct Option - 1

Que. 65 Which one of the following is the third cranial nerve?

1. Oculomotor nerve
2. Optic nerve
3. Abducens nerve
4. Trochlear nerve

Correct Option - 1

Que. 66 An outpatient department nurse is providing health education to a 40 years old person regarding the life style modification to prevent hypertension. What level of prevention is the nurse providing?

1. Secondary prevention
2. Quaternary prevention
3. Primary prevention
4. Tertiary prevention

Correct Option - 3

Que. 67 Respiration which is abnormally shallow for two or three breaths followed by irregular period of apnea is termed as:

1. Kussmaul's respiration
2. Biot's respiration
3. Hypoventilation
4. Cheyne-Stokes respiration

Correct Option - 4

Que. 68 A system in which each patient is assigned to a nurse who has 24 hours responsibility for nursing care delivered to the patient is termed as:

1. Primary nursing
2. Functional nursing
3. Modular nursing
4. Team nursing

Correct Option - 1

Que. 69 Which is the longest bone in the human body?

1. Patella
2. Tibia
3. Femur
4. Fibula

Correct Option - 3

Que. 70 Which is the 'Problem defining phase of interpersonal relationship as per Peplau's theory?

1. Orientation phase
2. Resolution phase
3. Identification phase
4. Exploitation phase

Correct Option - 1

Que. 71 Which is the appropriate site to administer intramuscular injections in children?

1. Vastus lateralis
2. Deltoid
3. Ventrogluteal
4. Dorsogluteal

Correct Option - 1

Que. 72 Which immunoglobulin can cross the placenta and can provide passive immunity to the newborn?

1. IgG
2. IgE
3. IgM
4. IgA

Correct Option - 1

Que. 73 Which is the most common HIV related malignancy?

1. Neuroblastoma
2. B-cell lymphoma
3. Hodgkin's lymphoma
4. Kaposi's sarcoma

Correct Option - 4

Que. 74 The period of acceptance of loss during which a person learns to deal with the loss is known as:

1. Idealization
2. Bereavement
3. Mourning
4. None of these

Correct Option - 3

Que. 75 The following are the major techniques for time event network analysis, except:

1. Linear programming
2. Critical path method
3. Programme evaluation and review technique

4. Gantt chart

Correct Option - 1

Que. 76 A type of immunity that occurs when the vaccination of a portion of population provides protection to unprotected individuals is:

1. Passive immunity
2. Contact immunity
3. Herd immunity
4. Active immunity

Correct Option - 3

Que. 77 Which hormone is responsible for performing placental function during first 8 to 10 weeks of pregnancy?

1. Human chorionic gonadotropin
2. Progesterone
3. Luteinizing hormone
4. Estrogen

Correct Option - 1

Que. 78 Nosocomial infections are also known as:

1. Hospital acquired infection
2. Idiopathic infection
3. Primary infection
4. Iatrogenic infection

Correct Option - 1

Que. 79 Who is the principal worker in the ICDS project?

1. Child development project officer
2. Multipurpose health worker
3. Anganwadi worker
4. Auxiliary nurse midwives

Correct Option - 3

Que. 80 Calculate the Expected date of delivery (EDD) using Naegele's rule, if a woman's first day of last menstrual period was February 11th 2018.

1. 1st November
2. 11th November
3. 30th November
4. 18th November

Correct Option - 4

Que. 81

Directions: In each of these questions a number series is given. In each series only one number is wrong. Find out the wrong number.

10, 22, 42, 94

- 1. 42
- 2. 10
- 3. 22
- 4. 94

Correct Option - 1

Que. 82 Directions: Answer the given question based on the following English alphabet. Which letter is 5th to the right of the 18th letter from your right?

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z

- 1. D
- 2. E
- 3. N
- 4. C

Correct Option - 3

Que. 83 Direction: In the following question Two words/numbers, separated by a ':', and bearing a certain relationship with each other, have been given on one side of the one that bears a similar relationship with the word/ number given on the other side of ':':

Lung : Man :: Gill : ?

- 1. Hen
- 2. Lion
- 3. Cow
- 4. Fish

Correct Option - 4

Que. 84 "Statue of Liberty" is located in _____.

- 1. Russia
- 2. France
- 3. United Kingdom
- 4. United States of America

Correct Option - 4

Que. 85 If '+' means 'divided by', '-' means 'added to', '×' means 'subtracted from' and '÷' means 'multiplied by', then what is the value of $24 \div 12 - 18 + 9$?

- 1. 290
- 2. 15
- 3. 0.72
- 4. -25

Correct Option - 1

Que. 86 Sunil walked 30m towards East, took a right turn and walked 40 m. Then, he took a left turn and walked 30m. In which direction is he now from the starting point?

1. None of these
2. East
3. South-East
4. North-East

Correct Option - 3

Que. 87 International AIDS Day is celebrated on _____.

1. 1st November
2. 1st December
3. 11th December
4. 11th November

Correct Option - 2

Que. 88 Who was the father of Tipu Sultan?

1. Din-e-Ilahi
2. Sher Shah Suri
3. Babur
4. Hyder Ali

Correct Option - 4

Que. 89 Who wrote Panchatantra?

1. Sudrak
2. Vishnu Sharma
3. Vishnu Gupta
4. Bharata Muni

Correct Option - 2

Que. 90 Who is the new Chairman of Tata Group of Industries?

1. Natarajan Chandrasekaran
2. Ratan Tata
3. Pawan Munjal
4. Cyrus Mistry

Correct Option - 1

Que. 91 Which of the following is a GUI (Graphical User Interface) based operating system?

1. SOLARIS
2. UNIX
3. MSDOS
4. Windows

Correct Option - 4

Que. 92 Which among the following files contain huge data is compressed form?

1. Backup file
2. PDF file
3. Executable file
4. Zip file

Correct Option - 4

Que. 93 Which among the following is an example of Asynchronous E-learning?

1. Online seminar
2. Computer based training
3. Screen sharing
4. Desktop conferencing

Correct Option - 2

Que. 94 A website which usually belongs to an individual to describe his/her comments on any event, person or an incident is known as:

1. HTML
2. Wide area Network
3. None of these
4. Blog

Correct Option - 4

Que. 95 Which type of cell reference in MS-Excel contains a formula which does not change when the formula is copied?

1. Absolute reference
2. Data reference
3. Mixed reference
4. Relative reference

Correct Option - 1

Que. 96 A registered nurse with advanced education who possess additional knowledge and skills specific to computer technology and information management is:

1. Informatics nurse specialist
2. Informatics innovator
3. Experienced nurse
4. Beginning nurse

Correct Option - 1

Que. 97 What is the short cut key to undo the last operation performed on the document?

1. Ctrl+C

2. Ctrl+Z
3. Ctrl+V
4. Ctrl+A

Correct Option - 2

Que. 98 HIS' refers to:

1. Hospital information system
2. Hospital initiative system
3. Health initiative system
4. Health information system

Correct Option - 1

Que. 99 PowerPoint software is used for:

1. Word processing
2. Data analysis
3. Manipulation of data
4. Designing presentation

Correct Option - 4

Que. 100 The use of information technology in the provision of nursing services whenever physical distance exists between patient and nurse, or between any number of nurses is called:

1. Nursing informatics
2. Nursing
3. Telenursing
4. Telephone triage

Correct Option - 3
