Q.86 Study the following table and answer the question that follows.

Rate of Employment (in percent) at Various Levels across 4 years				
Year	Primary level	Secondary level	Higher level	Total
1995	15	12	15	42
2000	20	18	20	58
2005	25	20	10	55
2010	30	25	15	70

Which of the following statements about the rate of employment at various levels is NOT true?

Ans

 1.

The ratio of the rate of higher level employment to the total employment rate was the same in 1995 and 2010.

 2.

The highest rate of secondary level employment was in 2010.

 3. The lowest rate of primary level employment was in 1995.

 4. The lowest rate of higher level employment was in 2005.
