SSC MTS Previous Year Paper (Held on: 25 July 2022 Shift 1)

Total Time: 1 Hour : 30 Minute

Total Marks: 100

Instructions

Sl No.	Section Name	No. of Question	Maximum Marks	Negative Marks	Positive Marks
1	General Intelligence & Reasoning	25	25	0.25	1
2	Numerical Aptitude	25	25	0.25	1
3	General English	25	25	0.25	1
4	General Awareness	25	25	0.25	1

- 1.) A total of 90 minutes is allotted for the examination.
- 2.) The server will set your clock for you. In the top right corner of your screen, a countdown timer will display the remaining time for you to complete the exam. Once the timer reaches zero, the examination will end automatically. The paper need not be submitted when your timer reaches zero.
- 3.) There will, however, be sectional timing for this exam. You will have to complete each section within the specified time limit. Before moving on to the next section, you must complete the current one within the time limits.

General Intelligence & Reasoning

1. Select the option that is related to the sixth number in the same way as the first number is related to the second number and the third number is related to the fourth number. (+1, -0.25)

$$1246 : 2164 :: 3482 : 4328 :: ? : 2548$$

- a. 2485
- b. 5284
- c. 2854
- d. 2458

2. What will come in the place of '?' in the following equation, if '+' and 'x' are interchanged and also '-' and '÷' are interchanged? (+1, -0.25)

$$4 + 8 \div 4 \times 2 - 2 = ?$$

- a. 44
- b. 28
- c. 48
- d. 29

3. What will be the value of the given expression if 'A' means '+', 'B' means '-', 'C' means 'x', and 'D' means '÷'? (+1, -0.25)

$$50 A 40 B 10 C 12 D 2 = ?$$

- a. 35

- b. 20
- c. 40
- d. 30

4. Select the option that is related to the third letter-cluster in the same way as the second letter-cluster is related to the first letter-cluster. (+1, -0.25)

ROBY : TJDT :: GAIN : ?

- a. IVKI
- b. IUKJ
- c. IUKI
- d. IVKJ

5. Select the option that is related to the fifth term in the same way as the second term is related to the first term and the fourth term is related to the third term. (+1, -0.25)

LOCAL : SVJHS :: PROOF : WYVVM :: STAGE : ?

- a. ZAHML
- b. ZAINL
- c. ZAHNL
- d. ZAHNK

6. In a certain code language, if Grapes is called Grass, Grass is called Jasmine, Jasmine is called Jaggery, Jaggery is called Melon, and Melon is called Guava, then what is a manmade object? (+1, -0.25)

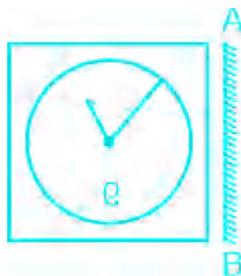

- a. Jaggery
- b. Melon
- c. Guava
- d. Jasmine

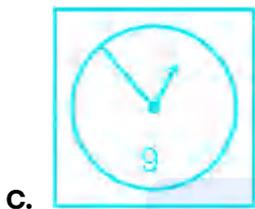

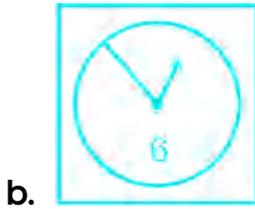

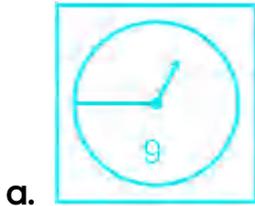

7. Select the option in which the pair of letter-clusters share the same relationship as that shared by the given letter-clusters. (+1, -0.25)

AM : EQ

- a. RS : VX
- b. LB : JF
- c. GH : KE
- d. PT : TX

8. Select the correct mirror image of the given figure when the mirror is placed at the right side. (+1, -0.25)

9. 8 boys A, B, C, D, E, F, G and H are sitting around a square table facing towards the centre (not necessarily in the same order). 4 boys are sitting at each corner, and 4 boys are sitting at the middle of each side of the table. A is an immediate neighbour of H and G. A is sitting at a corner. B is an immediate neighbour of D and C. E is an immediate neighbour of C and F. G is third to the right of D. Three out of the following four options follow a similar rule and form a group. Which of the following does NOT belong to that group? (+1, -0.25)

- a. EB
- b. BH
- c. AF

d. GC

10. Identify the number that does NOT belong to the following series. (+1, -0.25)

34, 63, 94, 131, 172, 225

a. 94

b. 63

c. 172

d. 225

11. J, K, L, M and N are sitting on a bench facing towards north (but not necessarily in the same order). J is immediate neighbour of K. L is immediate neighbour of N. J is not sitting with M who sits on the right end of the bench. J sits to the right of L and N. L sits to the right of N. In which position L is sitting? (+1, -0.25)

a. Second from the right

b. Second from the left

c. Fourth from the left

d. Third from the left

12. Select the option that will replace the question mark (?) in the given series. (+1, -0.25)

49, 53, 61, 73, 89, ?

a. 108

- b. 109
- c. 107
- d. 111

13. Select the letter-cluster from among the given options that can replace the question mark (?) in the following series. (+1, -0.25)

YZCD, WXEF, UVGH, STIJ, ?

- a. MNKL
- b. QROP
- c. MNOP
- d. QRKL

14. In a certain code language, 'Parties are scrumptious' is written as '@ # %', 'Peter loves parties' is written as '% fr kn' and 'Here scrumptious are cakes' is written as '# 6 9 @'. What can be the possible code for 'Here parties' in that code language? (+1, -0.25)

- a. # 9
- b. % #
- c. 6 9
- d. % 9

15. Select the option in which the numbers are related in the same way as are the numbers in the given set. (+1, -0.25)

(11, 23, 47)

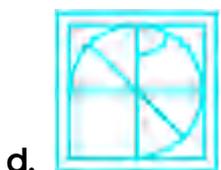

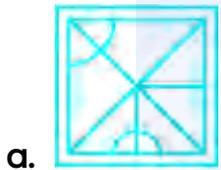

a. (17, 35, 69)

b. (13, 27, 54)

c. (19, 39, 79)

d. (23, 46, 93)

16. Select the option in which the given figure is embedded (Rotation is not allowed). (+1, -0.25)

17. Read the given statements and conclusions carefully. Assuming that the information given in the statements is true, even if it appears to be at variance with commonly known facts, decide which of the given conclusions logically follow(s) from the statements. (+1, -0.25)

Statements:

All pen are table.

All rubber are pen.

Conclusions:

I. All pen are rubber.

II. All table are pen.

III. No rubber is table.

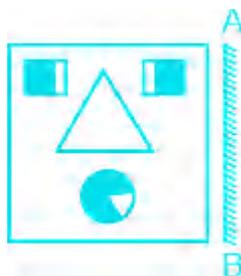

a. Both conclusions II and III follow.

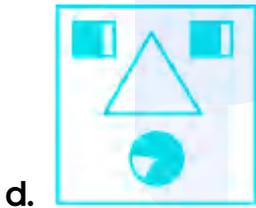

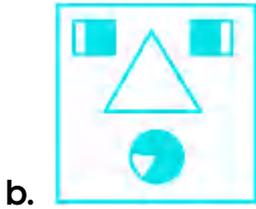

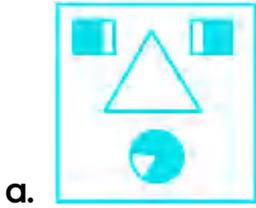

b. All conclusions follow.

c. Only conclusion III follows.

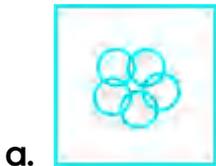

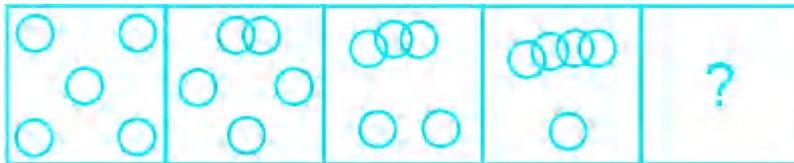

d. Neither conclusion follow.

18. Select the correct mirror image of the given figure when the mirror is placed to its right side. (+1, -0.25)

19. Select the figure from among the given options that can replace the question mark (?) in the following series. (+1, -0.25)

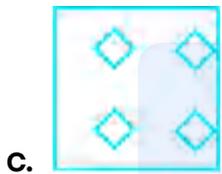

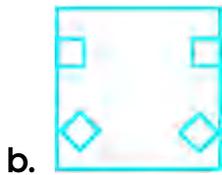

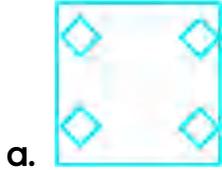

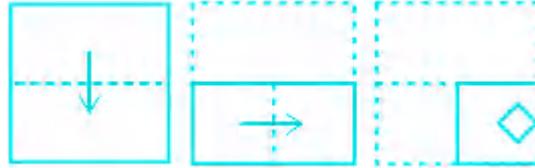

20. The prices of seven mobiles M1, M2, M3, M4, M5, M6 and M7 are compared. (+1, -0.25)
 The price of M7 is more than M5 and less than M4. The price of M1 more than M6 and less than M2. The price of M2 is less than the price of M5. If the price of M4 is less than only one mobile, then which of the following options is correct?

- a. $M3 > M4$
- b. $M6 > M5$
- c. $M1 > M5$
- d. $M7 > M3$

21. The sequence of folding a piece of paper and the manner in which the folded paper has been cut is shown in the following figures. How would this paper look when unfolded? (+1, -0.25)

prepp
Your Personal Exams Guide

22. Read the given statements and conclusions carefully. Assuming that the information given in the statements is true, even if it appears to be at variance with commonly known facts, decide which of the given conclusions logically follow(s) from the statements. (+1, -0.25)

Statements:

I. No L is P.

II. No R is L.

Conclusions:

I. Some R are not P.

II. Some R are not L.

- a. Only conclusion I follows
- b. Neither conclusion I nor II follows
- c. Both conclusions I and II follow
- d. Only conclusion II follows

23. In a certain code language, 'DETECT' is written as 'FCVCER' and 'HEIGHT' is written as 'JCKEJR'. How will 'MOTHER' be written in that language? (+1, -0.25)

- a. ONVFGP
- b. OMVFGO
- c. OMVEGP
- d. OMVFGP

24. Select the figure from the given options that can replace the question mark (?) in the following series. (+1, -0.25)

M N	S M	T S	?
S	T N	M	
T	J	A J N	

- a.

G	T
A	S
J	N M

b.

G	S	T
A		
J	N	M

c.

A	G	T
J		
N	M	S

d.

G	T	S
A		
J	N	M

25. In a certain code language, 'TRUMPS' is written as 'VTWORU' and 'GAYTER' is written as 'ICAVGT'. How will 'HEINAP' be written in that code language? (+1, -0.25)

- a. JGKPCR
- b. JGLPCR
- c. JGLQCR
- d. JGKQCR

Numerical Aptitude

26. Z is increased successively by $11\frac{1}{9}\%$ and 10% to get R. If $R = 165$, then what is the value of Z? (+1, -0.25)
- a. 145
 - b. 115
 - c. 125
 - d. 135
-

27. An car moves through 20 m in 3 minutes and the next 50 km at a speed of 100 km/h. What is the approximate average speed of the car? (+1, -0.25)
- a. 22.38 m/s
 - b. 20 m/s
 - c. 25.26 m/s
 - d. 26.28 m/s
-

28. If the sum of the diagonals of a rhombus is L and the perimeter is 4P, find the area of the rhombus? (+1, -0.25)
- a. $\frac{1}{4}(L^2 - P^2)$
 - b. $\frac{1}{2}(L^2 - 4P^2)$
 - c. $\frac{1}{4}(L^2 + 3P^2)$
 - d. $\frac{1}{4}(L^2 - 4P^2)$

29. If $P = 7 \times 4 - 3$, $Q = 8 \div 4 + 2$, and $R = 14 \div 21 \times 9$, then what is the value of $P \times Q + R$? (+1, -0.25)

- a. 96
- b. 112
- c. 108
- d. 106

30. If A_1 and A_2 are two distinct prime numbers, then what is the highest common factor of A_1 and A_2 ? (+1, -0.25)

- a. 3
- b. 1
- c. 5
- d. 2

prepp

Your Personal Exams Guide

31. Study the given table and answer the question that follows. (+1, -0.25)

The table shows the population of three cities P, Q and R, as percentage of the total population of these three cities taken together. It also shows the percentage of the population above 60 years of age in each of these cities, and also the ratio of males to females below 60 years of age, in each of these cities. The total population of all the three cities taken together is 3,00,000.

CITY	POPULATION	ABOVE 60	M : F (BELOW 60 YEARS)
P	45%	30%	3 : 7
Q	30%	70%	3 : 1
R	25%	40%	12 : 13

Find the male population of city R that is below 60 years.

- a. 19,800
- b. 24,600
- c. 21,600
- d. 30,000

32. The present ages of Vishal and Shekhar are in the ratio of 14 : 17. Six years from now, their ages will be in the ratio of 17 : 20. What is Shekhar's present age? (+1, -0.25)

- a. 51 years
- b. 34 years
- c. 36 years
- d. 17 years

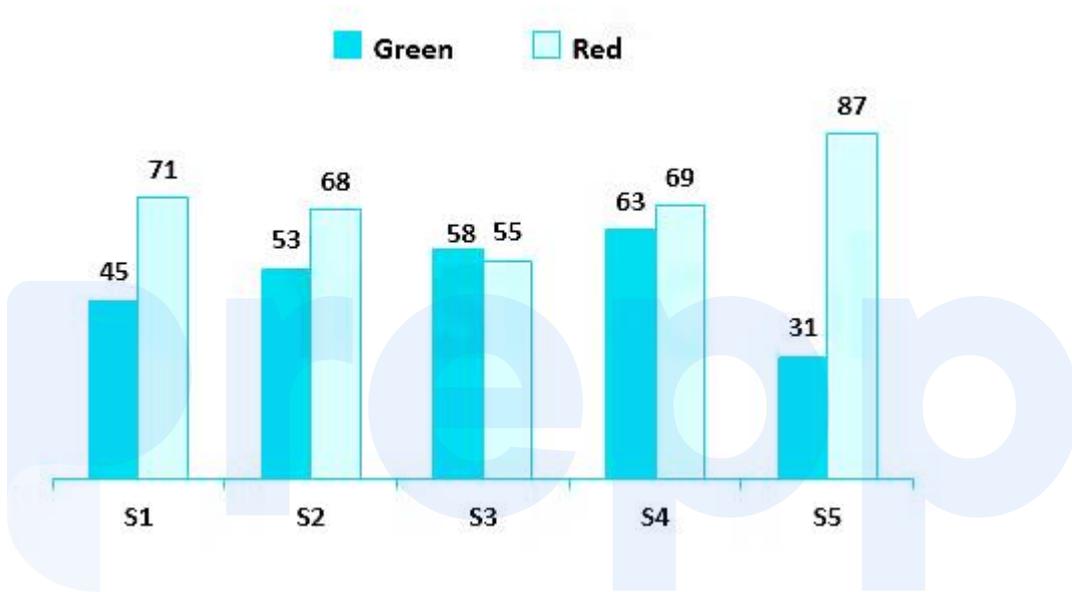

33. What is the difference between a discount of 35% and two successive discounts of 30% and 5% on a bill of ₹10,00,000? (+1, -0.25)

- a. ₹15,500
- b. ₹15,000

c. ₹14,000

d. ₹16,500

34. The following bar chart shows the number of bottles of green and red colours sold by 5 different shops. (+1, -0.25)

What is the ratio of the total number of green bottles sold by the 5 shops taken together to the total number of red bottles sold by the 5 shops taken together?

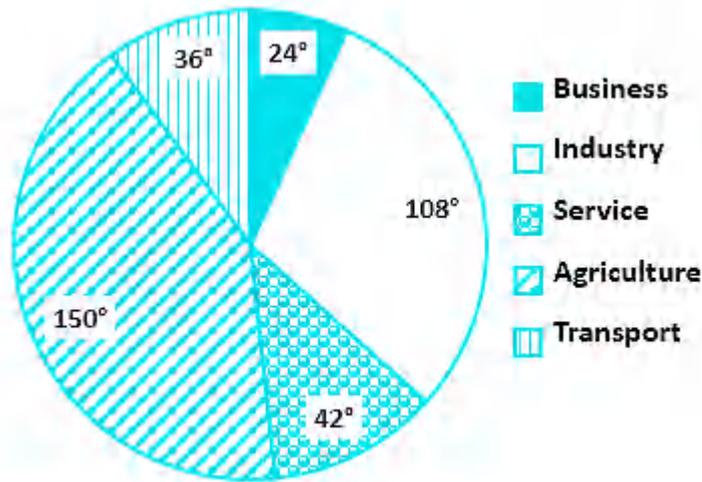

- a. 3 : 5
 - b. 6 : 11
 - c. 4 : 7
 - d. 5 : 7
35. The profit earned when a painting is sold for ₹1,200 is 15 times the loss incurred when it is sold for ₹240. At what price should be the painting be sold to make a profit of 40%? (+1, -0.25)

- a. ₹300
 - b. ₹480
 - c. ₹360
 - d. ₹420
-

36. 10 horses can graze a field in 14 days, and 10 sheep take 28 days to graze the same field. How many days will 5 horses and 10 sheep take to graze the same field? (+1, -0.25)

- a. 28
 - b. 10
 - c. 14
 - d. 20
-

37. The pie-chart shows the distribution of the 5,00,040 employed people of a city according to their occupations in terms of the central angles of the sectors representing people engaged in the different occupations mentioned. (+1, -0.25)

As per the information provided above, how many more people work in the service sector when compared to the number of people who engage themselves in business?

- a. 24,492
- b. 25,684
- c. 25,000
- d. 25,002

Your Personal Exams Guide

38. The length, the breadth, and the height of a cuboidal room are given as 80 m, 70 m, and 80 m, respectively. What will be the total cost of painting the four walls of this room, at the rate of 50 paise per square metre? (+1, -0.25)

- a. ₹1,20,000
- b. ₹28,000
- c. ₹48,000
- d. ₹12,000

39. The population of a town increases by 8% every year. If the present population of the town is 14,580, then what was the population of the town 2 years ago? (+1, -0.25)

- a. 13,600
 - b. 12,200
 - c. 13,765
 - d. 12,500
-

40. The cost price of a notebook is ₹120. It is sold at a profit of 40%. What is the nominal profit made on the sale of each notebook? (+1, -0.25)

- a. ₹40
 - b. ₹48
 - c. ₹36
 - d. ₹24
-

41. The speed of a motor-boat in still water and the speed of the current of water are in the ratio 20 : 4. To go a certain distance along the current the boat takes 4 hours. Find the time taken by the boat to cover the same distance against the current. (+1, -0.25)

- a. 10 hours
- b. 8 hours
- c. 12 hours

d. 6 hours

42. A man travels for 3 minutes at a speed of 22 km/h. What is the distance travelled by the man? (+1, -0.25)

- a. 2200 metres
 - b. 550 metres
 - c. 1650 metres
 - d. 1100 metres
-

43. A is 25 % less than B. B is 30% more than 120. What is the value of A? (+1, -0.25)

- a. 117
 - b. 111
 - c. 114
 - d. 108
-

44. The average weight of A, B, C and D is 33 kg. C is 12 kg lighter than A, while B is 6 kg heavier than C. D's weight is 10 kg less than that of C. What is the average of A and D? (+1, -0.25)

- a. 34 kg
 - b. 33 kg
 - c. 35 kg
 - d. 32 kg
-

45. Ridhaan took a loan of ₹12,000 at the rate of 8% simple interest per annum. What amount will he have to pay after 6 months, if he decides to repay the entire loan amount with interest at that time? (+1, -0.25)

- a. ₹12,580
- b. ₹12,480
- c. ₹14,690
- d. ₹13,720

46. 22 boys, working together, can complete a work in 10 days, whereas 25 boys and 12 girls take 8 days to complete the same work. In how many days can only 6 girls, working together, complete the same work? (+1, -0.25)

- a. 170
- b. 177
- c. 175
- d. 176

47. Select the number that will come in place of the question mark (?) in the following mathematical statement. (+1, -0.25)

$$(9^2 \times 27 + 3^2 \times 7 + ?)^{\frac{1}{2}} = 59$$

- a. 1087
- b. 1231
- c. 1111

d. 1090

48. Three numbers are in the ratio of 1 : 2 : 3. The product of the three numbers is 1296. What is the sum of the three numbers? (+1, -0.25)

a. 36

b. 30

c. 72

d. 24

49. The average of a certain set of 'b' numbers is 'a', and the average of a certain set of 'a' numbers is 'b'. What is the average of all the numbers taken together? (+1, -0.25)

a. $2b \div (a + b)$

b. $2ab \div (a + b)$

c. $(a + b) \div 2ab$

d. $2a \div (a + b)$

50. The area of a square is 1296 cm^2 and the radius of a circle is $\frac{7}{6}$ of the length of a side of the square. What is the ratio of the perimeter of the square and the circumference of the circle? [Use $\pi = \frac{22}{7}$] (+1, -0.25)

a. 13 : 11

b. 8 : 11

c. 6 : 11

d. 3:7

prepp

Your Personal Exams Guide

General English

51. Select the option that can be used as a one-word substitute for the given group of words. (+1, -0.25)

Make (something bad or unsatisfactory) better

- a. Judge
- b. Malign
- c. Castigate
- d. Ameliorate

52. Select the option that will improve the underlined part of the sentence. In case no improvement is needed, select 'No improvement reuired'. (+1, -0.25)

The viewing for the Mount Everest is clearer from here.

- a. view of an
- b. view of
- c. No improvement reuired
- d. viewing of a

53. Select the option that will improve the underlined part of the given sentence. In case no improvement is needed, select 'No improvement required'. (+1, -0.25)

An immense crowd had gather to witness this ceremony.

- a. had gathering

- b. gather
- c. No improvement required
- d. had gathered

54. Select the option that will improve the underlined part of the given sentence. In case no improvement is needed, select 'No improvement required'. (+1, -0.25)

When it comes to love of sports, he takes off his father.

- a. takes from
- b. takes by
- c. takes after
- d. No improvement required

55. Select the INCORRECTLY spelt word. (+1, -0.25)

- a. Bombastic
- b. Arachic
- c. Benign
- d. Artless

56. Parts of the following sentence have been given as options. One of them may contain an error. Select the part that contains the error from the given options. If you don't find any error, mark 'No error' as your answer. (+1, -0.25)

Businesses are asking employees to work from home.

- a. employees to work
 - b. from home
 - c. Businesses are asking
 - d. No error
-

57. Select the most appropriate meaning of the underlined idiom in the given sentence. (+1, -0.25)

A child in an art museum is like a bull in a China shop.

- a. A clumsy person in a delicate situation
 - b. A person who cries for everything
 - c. A talkative person
 - d. A person with no moral values
-

58. Select the option that can be used as a one-word substitute for the given group of words. (+1, -0.25)

An afternoon performance in a theatre or cinema

- a. Canvas
 - b. Premiere
 - c. Comedy
 - d. Matinee
-

59. Select the option that can be used as a one-word substitute for the given group of words. (+1, -0.25)

An ability to find ways and directions

- a. Navigate
- b. Annotate
- c. drive
- d. operate

60. Select the most appropriate option to fill in the blank. (+1, -0.25)

It was a long and dangerous journey in those unsettled days. The pilgrim had to face _____ by land and sea.

- a. safeties
- b. respite
- c. perils
- d. exposure

61. Select the most appropriate synonym of the given word. (+1, -0.25)

Hesitant

- a. Diligent
- b. Remote
- c. Eager

d. Reluctant

62. The following sentence has been divided into parts. One of them may contain an error. Select the part that contains the error from the given options. If you don't find any error, mark 'No error' as your answer. (+1, -0.25)

She didn't knew / that I was out / for some urgent work.

- a. for some urgent work
 - b. No error
 - c. that I was out
 - d. She didn't knew
-

63. Select the option that will improve the underlined part of the sentence. In case no improvement is needed, select 'No improvement required'. (+1, -0.25)

Many state governments are facing a financial crunch.

- a. are facing an
 - b. is facing a
 - c. will facing a
 - d. No improvement required
-

64. The following sentence has been divided into parts. One of them may contain an error. Select the part that contains the error from the given options. If you don't find any error, mark 'No error' as your answer. (+1, -0.25)

I have receive perhaps four / or five such requests during the / course of a typical week.

- a. or five such requests during the
 - b. No error
 - c. course of a typical week
 - d. I have receive perhaps four
-

65. Select the most appropriate ANTONYM of the given word. (+1, -0.25)

Laconic

- a. Verbose

66. Select the most appropriate synonym of the given word. (+1, -0.25)

Vanquish

- a. Defeat
 - b. Acquit
 - c. Surrender
 - d. Flee
-

67. Select the most appropriate option to fill in the blank. (+1, -0.25)

Overindulgence in anything may prove _____ to health.

- a. spurious
- b. injurious
- c. repetitive
- d. commercial

68. Select the option that rectifies the incorrectly spelt words in the given sentence. (+1, -0.25)

The table was grased with a lovely showpiece.

- a. The table was grased with a lovely showpiece.
- b. The table was graced with a lovaly showpiece.
- c. The table was graced with a lovely showpiece.
- d. The table was graced with a lovely showpiece.

69. Select the most appropriate option to fill in the blank. (+1, -0.25)

The judges applauded me for my _____ performance at the competition.

- a. usual
- b. normal
- c. outstanding

d. large

70. Select the most appropriate meaning of the given idiom.

(+1, -0.25)

Bury the hatchet

- a. To change the plans
- b. To make secret preparations to attack
- c. To settle disputes
- d. To hide something controversial

71. **Direction:** In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank.

(+1, -0.25)

Love is often thought to be the highest and most fulfilling emotion that men and women can (1)_____. But it is also thought of in (2)_____ to the various instincts in man. Therefore, we must (3)_____ from the mystical point of view that love is the highest emotion of man and the one emotion that relates man to God. Love on every plane and level of life is an expression of God's will, working and expressing itself in man's consciousness. To express love on any level is good, but to express it as adoration of God is the (4)_____ form of love and brings man into the greatest (5)_____ with his inner self.

Select the most appropriate option to fill in blank number 1.

- a. condemn
- b. express
- c. attack

d. condone

72. **Direction:** In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. (+1, -0.25)

Love is often thought to be the highest and most fulfilling emotion that men and women can (1) _____. But it is also thought of in (2) _____ to the various instincts in man. Therefore, we must (3) _____ from the mystical point of view that love is the highest emotion of man and the one emotion that relates man to God. Love on every plane and level of life is an expression of God's will, working and expressing itself in man's consciousness. To express love on any level is good, but to express it as adoration of God is the (4) _____ form of love and brings man into the greatest (5) _____ with his inner self.

Select the most appropriate option to fill in blank number 2.

- a. mention
- b. inspection
- c. position
- d. relation

73. **Direction:** In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. (+1, -0.25)

Love is often thought to be the highest and most fulfilling emotion that men and women can (1) _____. But it is also thought of in (2) _____ to the various instincts in man. Therefore, we must (3) _____ from the mystical point of view that love is the highest emotion of man and the one emotion that relates man to God. Love on

every plane and level of life is an expression of God's will, working and expressing itself in man's consciousness. To express love on any level is good, but to express it as adoration of God is the (4)_____ form of love and brings man into the greatest (5)_____ with his inner self.

Select the most appropriate option to fill in blank number 3.

- a. realise
- b. comprehends
- c. acknowledges
- d. contrast

74. Direction: In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. (+1, -0.25)

Love is often thought to be the highest and most fulfilling emotion that men and women can (1)_____. But it is also thought of in (2)_____ to the various instincts in man. Therefore, we must (3)_____ from the mystical point of view that love is the highest emotion of man and the one emotion that relates man to God. Love on every plane and level of life is an expression of God's will, working and expressing itself in man's consciousness. To express love on any level is good, but to express it as adoration of God is the (4)_____ form of love and brings man into the greatest (5)_____ with his inner self.

Select the most appropriate option to fill in blank number 4.

- a. smallest
- b. latest
- c. highest

d. largest

75. **Direction:** In the following passage, some words have been deleted. Read the passage carefully and select the most appropriate option to fill in each blank. (+1, -0.25)

Love is often thought to be the highest and most fulfilling emotion that men and women can (1)_____. But it is also thought of in (2)_____ to the various instincts in man. Therefore, we must (3)_____ from the mystical point of view that love is the highest emotion of man and the one emotion that relates man to God. Love on every plane and level of life is an expression of God's will, working and expressing itself in man's consciousness. To express love on any level is good, but to express it as adoration of God is the (4)_____ form of love and brings man into the greatest (5)_____ with his inner self.

Select the most appropriate option to fill in blank number 5.

- a. suffering
- b. harmony
- c. menace
- d. loathing

General Awareness

76. As per Sample Registration System's 2018 report, what percentage of India's population comes under working age? (+1, -0.25)
- a. 74%
 - b. 44%
 - c. 85%
 - d. 66%
-

77. The moon moves around the earth in about _____ . (+1, -0.25)
- a. 30 days
 - b. 24 days
 - c. 27 days
 - d. 29 days
-

78. Which lake of India is the result of tectonic activity? (+1, -0.25)
- a. Dal lake
 - b. Barapani lake
 - c. Loktak lake
 - d. Wular lake
-

79. Jhaveri Sisters are famous for which form of classical dance? (+1, -0.25)

- a. Manipuri
 - b. Mohiniyattam
 - c. Kuchipudi
 - d. Odissi
-

80. What is the atomic number of sulphur? (+1, -0.25)

- a. 15
 - b. 14
 - c. 16
 - d. 18
-

81. Article 51 of the Indian Constitution is about _____ . (+1, -0.25)

- a. uniform civil code for the citizens
 - b. organisation of agriculture and animal husbandry
 - c. promotion of international peace and security
 - d. separation of judiciary from executive
-

82. Dhamek stupa is one of the most prominent Buddhist structures in India. (+1, -0.25)
It is situated in the _____ district of Uttar Pradesh.

- a. Jaunpur
- b. Agra

- c. Varanasi
 - d. Mirzapur
-

83. Which chapter of the Constitution of India discusses the articles of Parliament? (+1, -0.25)

- a. Chapter III
 - b. Chapter I
 - c. Chapter II
 - d. Chapter IV
-

84. 'Unfinished' is a memoir of the famous Indian actress _____ . (+1, -0.25)

- a. Vidya Balan
 - b. Kangana Ranaut
 - c. Sridevi
 - d. Priyanka Chopra Jonas
-

85. With respect to value addition in the textile industry, knitting is followed by which procedure? (+1, -0.25)

- a. Garment manufacture
- b. Spinning
- c. Fibre production

d. Dyeing and finishing

86. In which state of India is Nuakhai festival celebrated? (+1, -0.25)

a. Bihar

b. Assam

c. Odisha

d. Tamil Nadu

87. Which scientist first coined the term, Ecosystem/Ecological System? (+1, -0.25)

a. Frederic Edward Clements

b. Eugene Odum

c. Charles Sutherland Elton

d. Arthur Tansley

88. According to Article 112 of the Constitution of India, the Union Budget of a year is called _____ (+1, -0.25)

a. Annual Budget Statement

b. Fiscal Budget

c. Annual Financial Statement

d. Assessment Statement

89. In which of the following events did India NOT win any medal at the Summer Olympics 2020 (played in 2021)? (+1, -0.25)
- a. Men's hockey
 - b. Women's singles badminton
 - c. Men's javelin throw
 - d. Women's hockey
-

90. Which of the following dynasties ruled over Delhi just after the Sayyid dynasty? (+1, -0.25)
- a. Rajput dynasty
 - b. Tughluq dynasty
 - c. Khalji dynasty
 - d. Lodi dynasty
-

91. Which Indian state government launched a cleanliness drive called Project CLAP? (+1, -0.25)
- a. Uttar Pradesh
 - b. Andhra Pradesh
 - c. Rajasthan
 - d. Madhya Pradesh
-

92. Padma Shri awardee, Gaddam Padmaja Reddy was associated with which classical dance of India? (+1, -0.25)
- a. Kuchipudi
 - b. Manipuri
 - c. Sattriya
 - d. Kathak
-

93. The first English factory was set up on the banks of the river Hugli in (+1, -0.25)
-
- a. 1645
 - b. 1651
 - c. 1648
 - d. 1640
-

94. Who will be India's Chief G20 Coordinator from May 2022? (+1, -0.25)
- a. Harsh Vardhan Shringla
 - b. Rajiv Gauba
 - c. Shashi Tharoor
 - d. Ajit Doval
-

95. How many number of players are permitted to be substituted in a game of field hockey? (+1, -0.25)

- a. No limit
- b. 3
- c. 10
- d. 5

96. The process of seepage of water into the land is called _____. (+1, -0.25)

- a. infiltration
- b. depletion
- c. storage
- d. replenishment

97. Which of the following titles was held by Samudragupta, a ruler of the Gupta Dynasty? (+1, -0.25)

- a. Jahan Panah
- b. Sahib-e-Qiran
- c. Kaviraja
- d. Mahendraitya

98. Who was the founder of Brahmo Samaj in 1828, at Calcutta? (+1, -0.25)

- a. Ram Singh
 - b. HN Kunzru
 - c. Swami Dayanand Saraswati
 - d. Raja Ram Mohan Roy
-

99. What is the capital of India's neighbouring country Afghanistan? (+1, -0.25)

- a. Karachi
 - b. Kabul
 - c. Kandahar
 - d. Kathmandu
-

100. Pandit Ravi Shankar is associated with _____ musical instrument. (+1, -0.25)

- a. sitar
- b. violin
- c. flute
- d. guitar

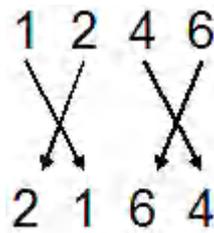

Answers

1. Answer: b

Explanation:

The pattern followed in the given series is:

First and second digits are interchanged & third and fourth digits are interchanged.

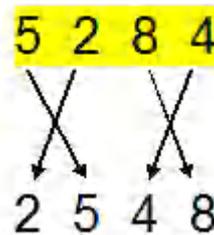

1246 becomes 2164

3482 becomes 4328

Similarly,

2548 is obtained from 5284

Hence, the correct answer is option 2.

2. Answer: d

Explanation:

Given:

$$4 + 8 \div 4 \times 2 - 2 = ?$$

Explanation:

'+' and 'x' are interchanged and '-' and '÷' are interchanged

By using BODMAS rule:

B	Brackets in order {}, {}, []	ब्रैकेट {}, {}, [] क्रम में
O	of	का
D	Division (÷)	विभाजन (÷)
M	Multiplication (×)	गुणा (×)
A	Addition (+)	जोड़ (+)
S	Subtraction (-)	घटाव (-)

$$4 \times 8 - 4 + 2 \div 2 = ?$$

$$4 \times 8 - 4 + 1 = ?$$

$$32 - 4 + 1 = ?$$

$$33 - 4 = \text{Answer}$$

$$29 = \text{Answer}$$

Hence, the correct answer is option 4.

3. Answer: d

Explanation:

Given:

Alphabet	Denotation
A	+
B	-
C	×
D	÷

50 A 40 B 10 C 12 D 2 = ?

Explanation:

Now we substitute the values and solve the equation using BODMAS rule:

B	Brackets in order {}, [], ()	ब्रैकेट {}, [], () क्रम में
O	of	का
D	Division (÷)	विभाजन (÷)
M	Multiplication (×)	गुणा (×)
A	Addition (+)	जोड़ (+)
S	Subtraction (-)	घटाव (-)

$50 + 40 - 10 \times 12 \div 2 = ?$

$50 + 40 - 10 \times 6 = ?$

$50 + 40 - 60 = ?$

$90 - 60 = \text{Answer}$

$30 = \text{Answer}$

Hence, Required value is 30.

4. Answer: a

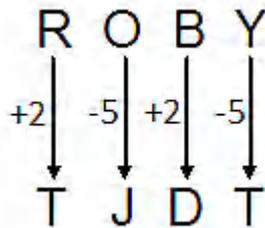

Explanation:

According to the English alphabet and their positional values:

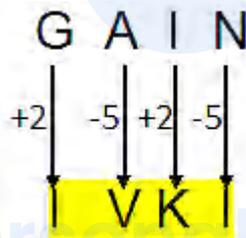

Alphabets	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabets	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

The pattern followed in the given series is:

- Alphabets at odd place are increased to 2 positional values.
- Alphabets at even place are decreased to 5 positional values.

ROBY becomes TJDT
Similarly,

GAIN becomes IVKI

Hence, the correct answer is option 1)

5. Answer: c

Explanation:

According to the English alphabets and their positional values:

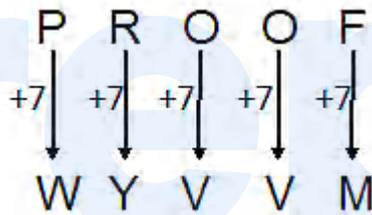

Alphabets	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabets	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

The pattern in the given series is:

There is a difference of 7 positional values between the alphabet and its code:

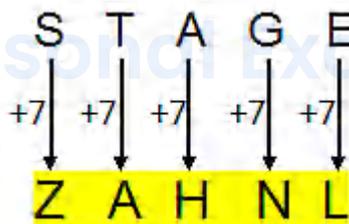

LOCAL becomes SVJHS

PROOF becomes WYVVM

Similarly,

STAGE becomes ZAHNL

Hence, the correct answer is option 3.

6. Answer: b

Explanation:

Given information:

Grapes is called Grass, Grass is called Jasmine, Jasmine is called Jaggery, Jaggery is called Melon, and Melon is called Guava.

Out of Grass, Jasmine, Jaggery, Melon and Guava, only jaggery is man-made and rest are naturally grown.

Here jaggery is called Melon.

Therefore Jaggery -- Melon

Hence, the correct answer is option 2.

7. Answer: d

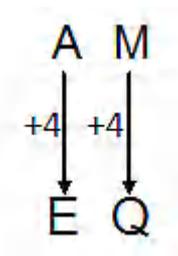

Explanation:

According to the English alphabets and their positional values:

Alphabets	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabets	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

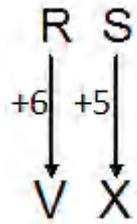

The pattern followed in the given series is:

There is a difference of 4 positional values between the alphabet and its code.

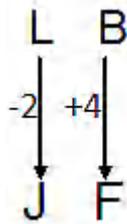

Now we compare each option with this pattern:

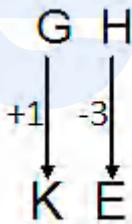

Option 1)

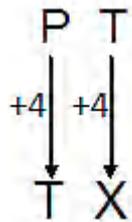

Pattern does not match.
Option 2)

Pattern does not match.
Option 3)

Pattern does not match.
Option 4)

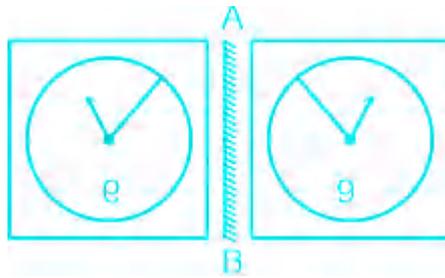

Pattern matches with the given cluster.

Hence, the correct answer is option 4.

8. Answer: c

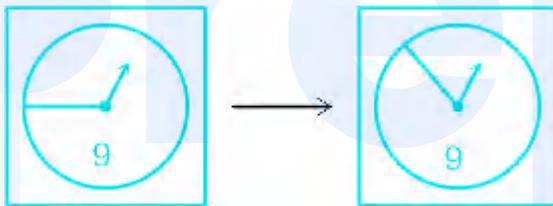

Explanation:

The mirror image of the given figure is:

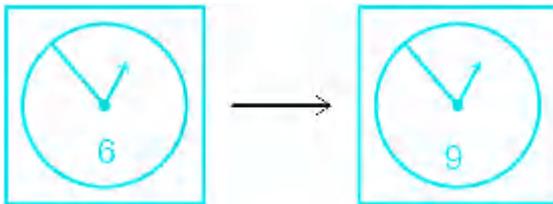

Now we compare the mirror image with the given options:

Option 1)

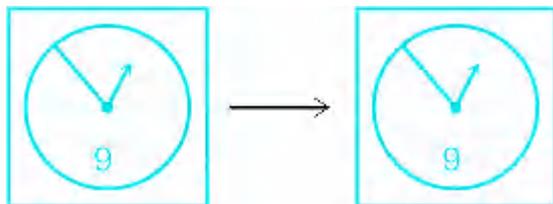

The direction of the line is different in this option.

Option 2)

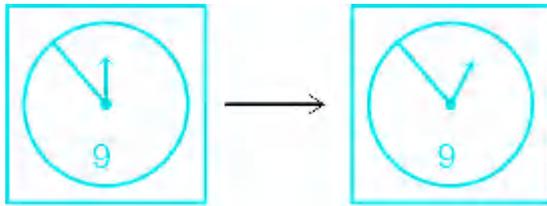

The number is changed in this option.

Option 3)

The image completely matches with the option.
Option 4)

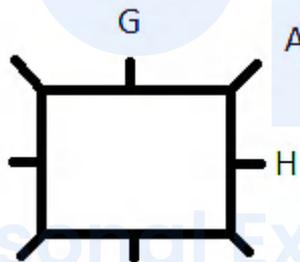

The direction of the line is different in this option.

Hence, the correct answer is option 3.

9. Answer: d

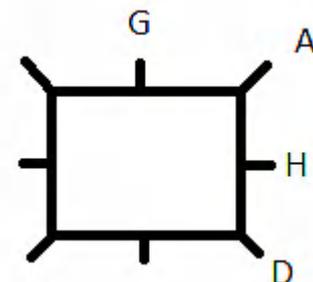

Explanation:

Step 1: A is an immediate neighbour of H and G. A is sitting at a corner.

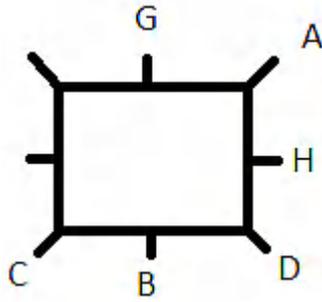

We place A at one corner and then place G and H to its immediate spots.

Step 2: G is third to the right of D.

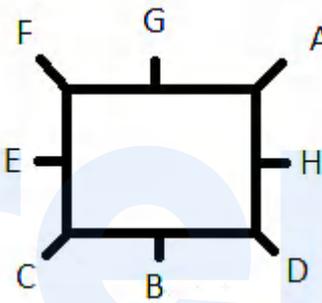

Now we place D to the third left of G.

Step 3: B is an immediate neighbour of D and C

Here we place B next to D and then C next to B.
Step 4: E is an immediate neighbour of C and F.

Lastly we place E next to C and F next to E.
With the help of this diagram, we check the relation between given options:

- Option 1) EB : There is only one person between them.
- Option 2) BH : There is only one person between them.
- Option 3) AF : There is only one person between them.
- Option 4) GC : There is two people between them.

Thus **GC is the odd pair.**

Hence, the correct answer is option 4)

10. Answer: d

Explanation:

The pattern followed in the given series is:

The difference is followed by consecutive prime number series.

As 215 will come in place of 225 so option 4 is the correct answer.

Hence, the correct answer is option 4.

11. Answer: b

Explanation:

Step 1: J is not sitting with M who sits on the right end of the bench

We place M at right end and J is not placed in this step because of lack of information.

Step 2: J sits to the right of L and N

Step 3: J is immediate neighbour of K.

Out of four spots J cannot be placed next to M and there are 2 people at J's left so the only spot left is 3rd. Also K is placed at right of J because L and N are on J's left.

Step 4: L sits to the right of N.

We place N and place L to its right.

From the final diagram, we can see that L is placed second from the left.

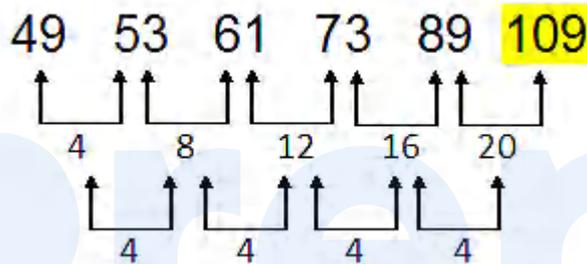

Hence, the correct answer is option 2.

12. Answer: b

Explanation:

The pattern in the given series is:

The difference between the terms is consecutive multiple of 4.

Hence, the correct answer is option 2.

13. Answer: d

Explanation:

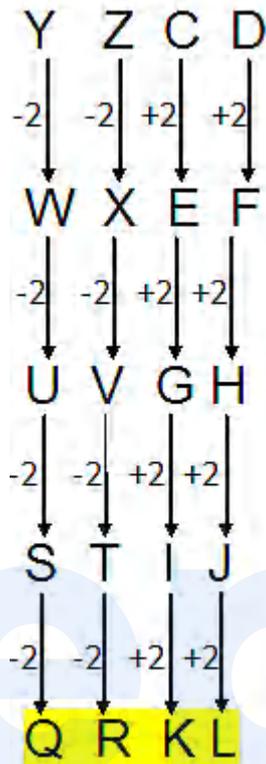

According to the English alphabets and their positional values:

Alphabets	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabets	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

The pattern followed in the given series is:

- First and second letters are decreased to 2 positional values than the previous cluster.

- **Third and fourth** letters are increased to 2 positional values than the previous cluster.

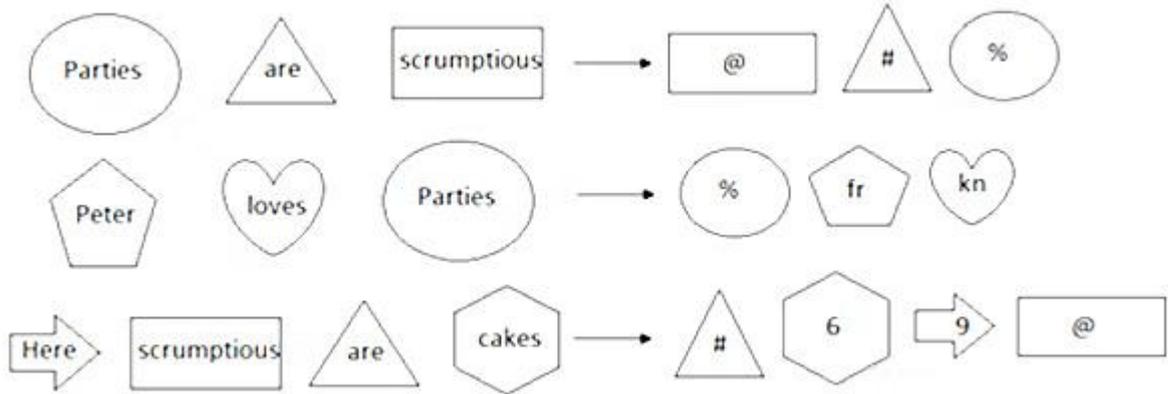

Hence, the correct answer is option 4.

14. Answer: d

Your Personal Exams Guide

Explanation:

From the given information:

We want the code for 'Here parties':
From the diagram we can see,

- Parties is coded as %
- Here is coded as 9

So 'Here parties' will be '9 %' but the pattern suggests code for first word comes last. Therefore % 9 is the right order.

Hence, the correct answer is option 4.

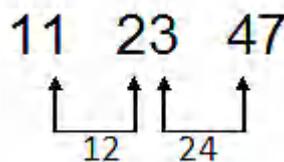

15. Answer: c

Explanation:

The pattern in the given set is:

Difference between 1st and 2nd term $\times 2$ = Difference between 2nd and 3rd term

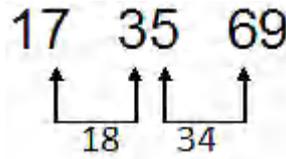

Let's apply:

$$12 \times 2 = 24$$

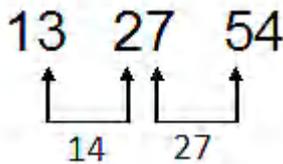

Now we compare the pattern with the given options:

Option 1) (17, 35, 69)

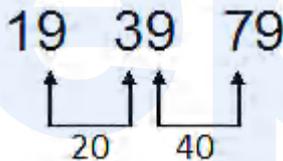

$$18 \times 2 = 36 ; 34 \neq 36$$

Option 2) (13, 27, 54)

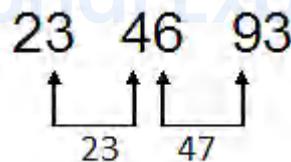

$$14 \times 2 = 28 ; 27 \neq 28$$

Option 3) (19, 39, 79)

$$20 \times 2 = 40 ; 40 = 40$$

Option 4) (23, 46, 93)

$$23 \times 2 = 46 ; 46 \neq 47$$

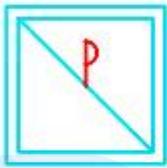

Only option 3) matches the pattern of the given set.

Hence, the correct answer is option 3.

16. Answer: a

Explanation:

We compare each option with the given figure:

No.	Option	Question	Answer
1.			Embedded
2.			Not Embedded
3.			Not Embedded
4.			Not Embedded

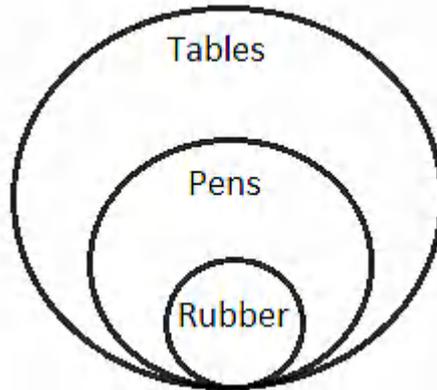

Only option 1) has the given figure embedded in it.

Hence, the correct answer is option 1.

17. Answer: d

Explanation:

According to the given statements, the Venn diagram is:

I. **All pen are rubber:** All rubbers are pens but some pens are tables too, therefore not all pen are rubber. So conclusion doesn't follow.

II. **All table are pen:** Some tables are pen and some tables are rubber too, and some tables are not both of them, thus not all tables are pen. So conclusion don't follow.

III. **No rubber is table:** All rubbers are pen and all pens are tables, therefore all rubbers are table. So the conclusion doesn't follow.

Since all three conclusions don't follow.

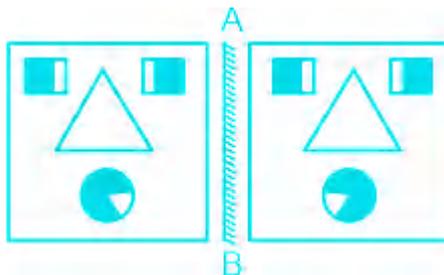

Hence, the correct answer is option 4.

18. **Answer: a**

Four Personal Exams Guide

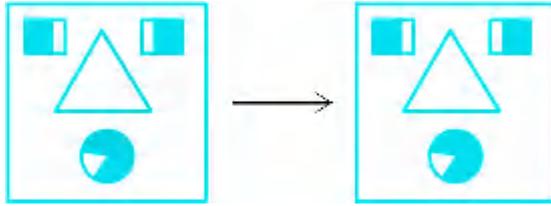

Explanation:

The mirror image of the given figure is:

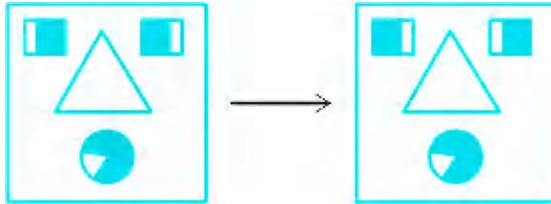

Now we compare each option with the mirror image:

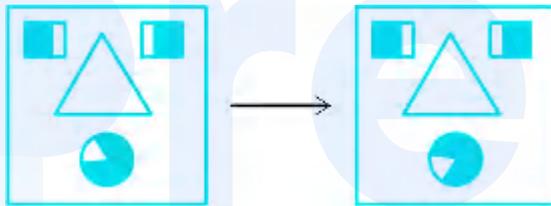

Option 1)

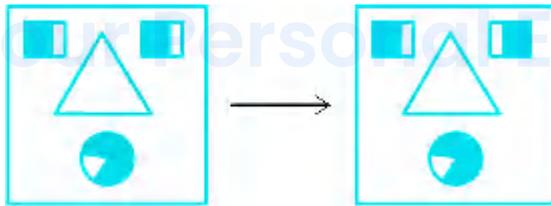

The figure matches completely with the mirror image.
Option 2)

The shades in the squares are in opposite directions.
Option 3)

The white region in the circle is different in this option.
Option 4)

The shades in the squares are in opposite directions.

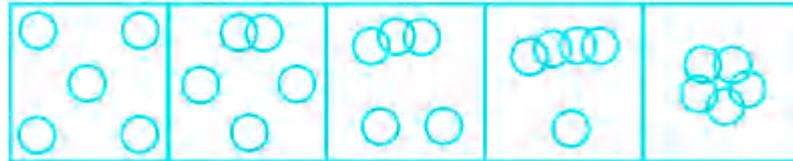

Hence, the correct answer is option 1.

19. Answer: a

Explanation:

According to the given diagram, we can see that at each step one ring is combined with existing group and in the last step, all rings will combine together such that each ring is connected with two neighboring rings.

So the last step will be:

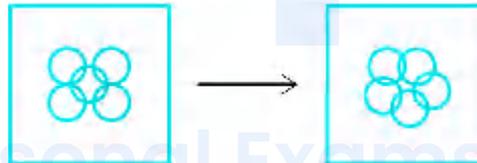

Now we compare each option with the last step obtained:

Option 1)

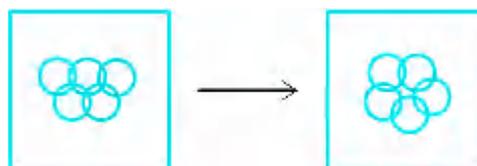

The figure matches completely with the option.

Option 2)

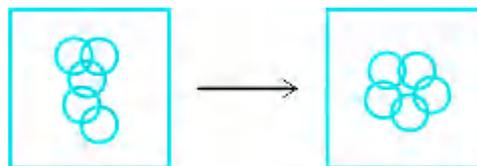

The central ring is connected with more than two rings. It is incorrect pattern.

Option 3)

The rings are connected with more than two rings. It is incorrect pattern.

Option 4)

The rings are connected with more than two rings. It is incorrect pattern.

Hence the correct answer is option 1.

20. Answer: a

Explanation:

Explanation:

Step 1: The price of M7 is more than M5 and less than M4.

$$M4 > M7 > M5$$

Step 2: The price of M1 is more than M6 and less than M2.

$$M2 > M1 > M6$$

Step 3: The price of M2 is less than the price of M5.

$$M5 > M2$$

Here we can relate steps 1 and 2, we get:

$$M4 > M7 > M5 > M2 > M1 > M6$$

Only mobile left is M3 and according to the condition:

If the price of M4 is less than only one mobile,

$$M3 > M4$$

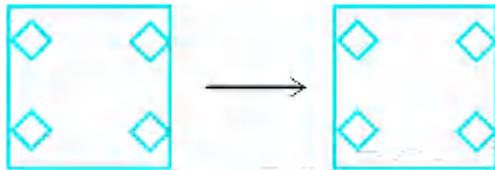

So the final order is:

$$M3 > M4 > M7 > M5 > M2 > M1 > M6$$

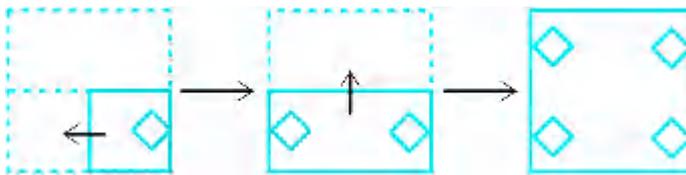

Hence, the correct answer is option 1.

21. Answer: a

Explanation:

We unfold the paper step by step:

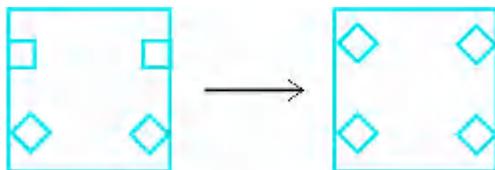

Now we compare each option with the final step:

Option 1)

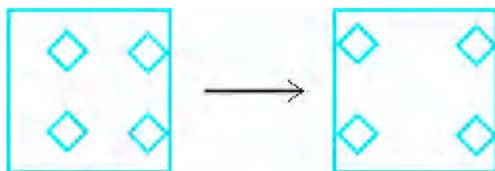

The pattern in the option matches completely.

Option 2)

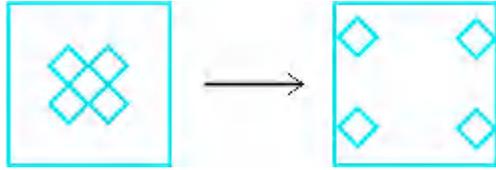

The shape of the figure is not correct.

Option 3)

Pattern in this option is correct but the alignment is incorrect.

Option 4)

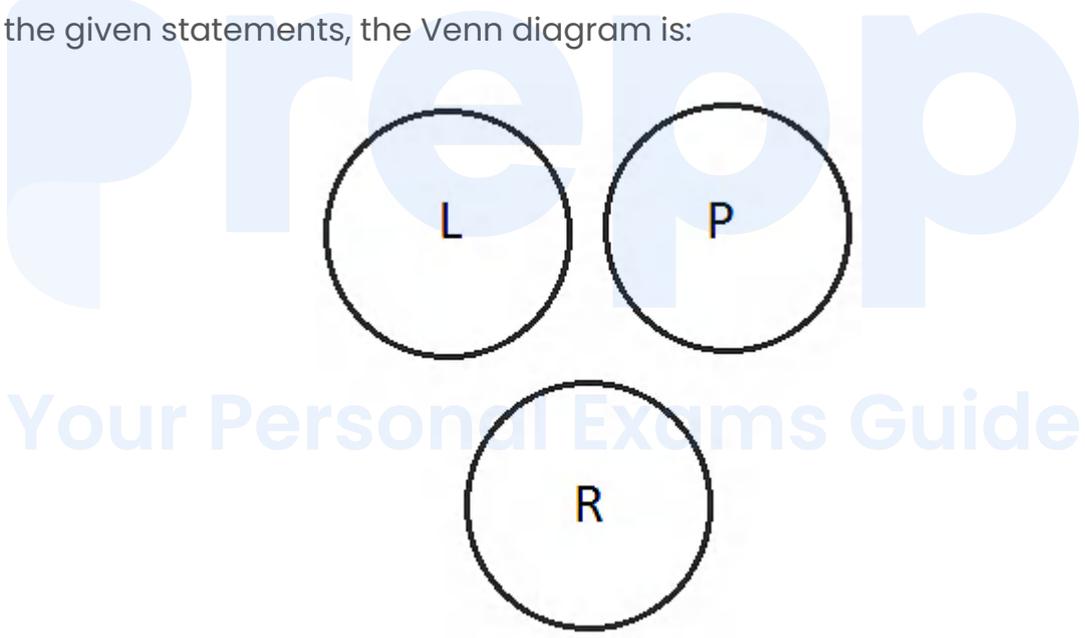

The pattern is different in this option.

Hence, the correct answer is option 1.

22. Answer: d

Explanation:

From the given statements, the Venn diagram is:

I. **Some R are not P:** There is no relation given between R and P, therefore there is no evidence of some R are not P. Thus the conclusion does not follow.

II. **Some R are not L:** All R are not L and it is safe to say that some R are not L which makes this conclusion true. So the conclusion follows.

Only conclusion II follows.

Hence, the correct answer is option 4.

23. Answer: d

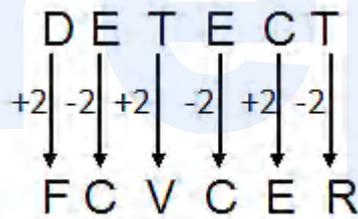

Explanation:

According to the English alphabet and their positional values:

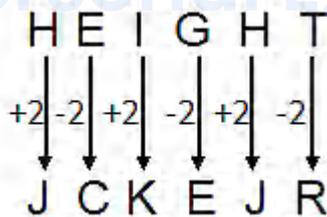

Alphabets	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabets	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

The pattern followed by the given series is:

- Alphabets at odd places are increased to 2 positional values.
- Alphabets at even places are decreased to 2 positional values.

DETECT becomes FCVCER

HEIGHT becomes JCKEJR

Similarly,

MOTHER becomes OMVFGP

Hence, the correct answer is option 4.

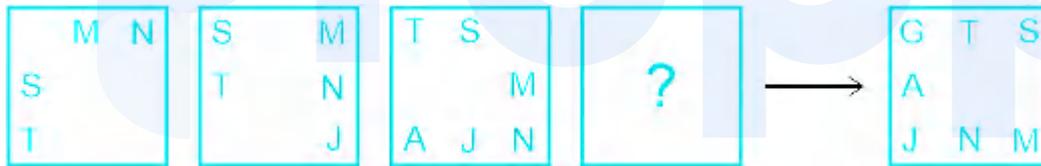

24. Answer: d

Explanation:

The pattern followed in the given series is:

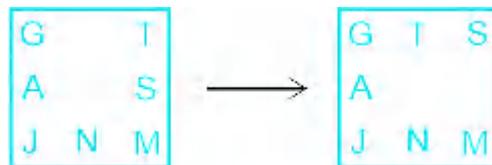

- S moves in clockwise direction maintaining space with M.
- T moves in clockwise direction behind S.
- M moves in clockwise direction maintaining space with S.
- N moves in clockwise direction ahead of M.
- At each step a new alphabet is added.

The next step will be

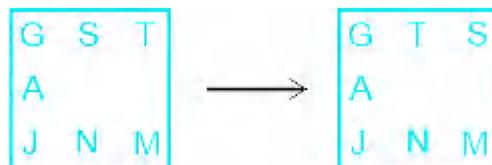

Now we compare the pattern with the given options:

Option 1)

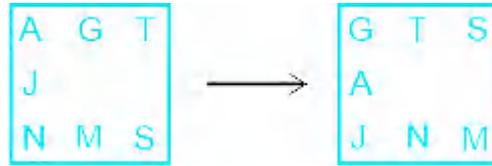

The pattern does not match. This option is incorrect.

Option 2)

The pattern does not match. This option is incorrect.

Option 3)

The pattern does not match. This option is incorrect.

Option 4)

The pattern matches completely.

Hence, the correct answer is option 4.

25. Answer: a

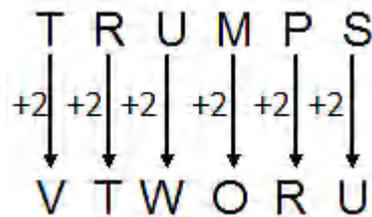

Explanation:

According to the English alphabet and their positional values:

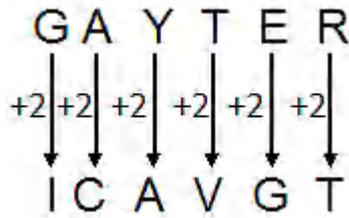

Alphabets	A	B	C	D	E	F	G	H	I	J	K	L	M
Positional value	1	2	3	4	5	6	7	8	9	10	11	12	13
Positional value	26	25	24	23	22	21	20	19	18	17	16	15	14
Alphabets	Z	Y	X	W	V	U	T	S	R	Q	P	O	N

The pattern in the given series is:

Alphabets are increased to 2 positional values.

TRUMPS becomes VTWOU

GAYTER becomes ICAVGT

Similarly,

HEINAP becomes JGKPCR

Hence, the correct answer is option 1.

26. Answer: d

Explanation:

Given:

Successive increase in Z = $11\frac{1}{9}\%$ and 10%

R = 165

Calculation:

Let the value of Z be x.

After first increase of $11\frac{1}{9}\%$,

Value of Z = $x + 11\frac{1}{9}\%$ of x

Value of Z = $x + \frac{100}{100} \times x = x + \frac{x}{9} = \frac{10x}{9}$

Again increase of 10%,

$$\text{Value of } Z = \frac{10x}{9} + \frac{10}{100} \times \frac{10x}{9} = \frac{10x}{9} + \frac{x}{9} = \frac{11x}{9}$$

According to the question,

$$\Rightarrow \frac{11x}{9} = 165$$

$$\Rightarrow x = \frac{165 \times 9}{11} = 135$$

Hence, the value of Z is 135.

27. Answer: c

Explanation:

Given:

Time taken by the car to move 20 m = 3 minutes

Speed of the car for next 50 km = 100 km/h

Concept Used:

Speed = Distance \div Time

Calculation:

Firstly, we will change m into km and minutes into hours.

$$\Rightarrow 20 \text{ m} = \frac{20}{1000} = 0.02 \text{ km}$$

$$\Rightarrow 3 \text{ minutes} = \frac{3}{60} = 0.05 \text{ hours}$$

Time taken by the car for remaining 50 km = $\frac{50}{100} = 0.5$ hour

$$\text{Average Speed of the car} = \frac{50+0.02}{0.5+0.05} = \frac{50.02}{0.55} = 90.94 \text{ km/h}$$

Now, to convert the average speed from km/h to m/s, multiply by $\frac{5}{18}$

$$\Rightarrow 90.94 \text{ km/h} = 90.94 \times \frac{5}{18} = 5.05 \times 5 = 25.26 \text{ m/s}$$

Hence, the approximate average speed of the car is 25.26 m/s.

28. Answer: d

Explanation:

Given:

Sum of diagonals of rhombus = L

Perimeter of rhombus = 4P

Concept Used:

Perimeter of Rhombus = $2 \sqrt{(Diagonal1)^2 + (Diagonal2)^2}$

Area of Rhombus = $\frac{1}{2} \times$ Product of Diagonals

Calculation:

Let the diagonals of the rhombus be d_1 and d_2

Perimeter of Rhombus = 4P

$$\Rightarrow (4P)^2 = 4(d_1^2 + d_2^2)$$

$$\Rightarrow d_1^2 + d_2^2 = \frac{16P^2}{4} = 4P^2$$

As given,

Sum of diagonal, $d_1 + d_2 = L$

Squaring both sides,

$$\Rightarrow (d_1 + d_2)^2 = L^2$$

$$\Rightarrow d_1^2 + d_2^2 + 2d_1d_2 = L^2$$

$$\Rightarrow 2d_1d_2 = L^2 - 4P^2$$

$$\Rightarrow d_1 d_2 = \frac{L^2 - 4P^2}{2}$$

$$\text{So, the Area of Rhombus} = \frac{1}{2} \times \left(\frac{L^2}{2} - 2P^2 \right) = \frac{L^2}{4} - P^2 = \frac{1}{4} (L^2 - 4P^2)$$

Hence, the area of a rhombus is $\frac{1}{4} (L^2 - 4P^2)$.

29. Answer: d

Explanation:

Given:

$$P = 7 \times 4 - 3$$

$$Q = 8 \div 4 + 2$$

$$R = 14 \div 21 \times 9$$

Concept Used:

BODMAS = Bracket, Of, Division, Multiplication, Addition, Subtraction

Calculation:

We have to find, $P \times Q + R$

$$\Rightarrow P \times Q + R = (7 \times 4 - 3) \times (8 \div 4 + 2) + (14 \div 21 \times 9)$$

$$\Rightarrow (28 - 3) \times (2 + 2) + \left(\frac{14}{21} \times 9 \right)$$

$$\Rightarrow 25 \times 4 + 6 = 100 + 6 = 106$$

Hence, the value of $P \times Q + R$ is 106.

30. Answer: b

Explanation:

Given:

Two distinct prime numbers = A1 and A2

Calculation:

Let the two distinct prime numbers be 3 and 7

So, Factors of 3 = 1×3

Factors of 7 = 1×7

The highest common factor of 3 and 7 = 1

Hence, the highest common factor of A1 and A2 is 1.

31. Answer: c

Explanation:

Given:

CITY	POPULATION	ABOVE 60	M : F (BELOW 60 YEARS)
P	45%	30%	3 : 7
Q	30%	70%	3 : 1
R	25%	40%	12 : 13

Total population of all three cities = 3,00,000

Concept Used:

Basic Percentage Calculation

Calculation:

Population percentage of city R = 25%

Population of city R = 25% of 300000

$$\text{Population of city R} = \frac{25}{100} \times 300000 = 75000$$

$$\text{Population above 60 years} = \frac{40}{100} \times 75000 = 30000$$

$$\text{Population of below 60 years} = 75000 - 30000 = 45000$$

Now, let the number of males be $12x$ and the number of females be $13x$.

$$\text{So, } 12x + 13x = 45000$$

$$\Rightarrow 25x = 45000$$

$$\Rightarrow x = \frac{45000}{25} = 1800$$

Then, the male population of city R for below 60 years = $12x = 12 \times 1800 = 21,600$

Hence, the male population in the city R for the age below 60 years is 21,600.

32. Answer: b

Explanation:

Given: Your Personal Exams Guide

Present ages ratio of Vishal and Shekhar = 14 : 17

Ratio of ages after six years = 17 : 20

Calculation:

Let the present age of Vishal be $14x$ and Shekhar be $17x$.

After six years,

$$\text{Age of Vishal} = 14x + 6$$

$$\text{Age of Shekhar} = 17x + 6$$

According to the question,

$$\Rightarrow \frac{14x+6}{17x+6} = \frac{17}{20}$$

$$\Rightarrow 20 \times (14x + 6) = 17 \times (17x + 6)$$

$$\Rightarrow 280x + 120 = 289x + 102$$

$$\Rightarrow 289x - 280x = 120 - 102$$

$$\Rightarrow 9x = 18$$

$$\Rightarrow x = \frac{18}{9} = 2$$

So, shekhar's present age = $17x = 17 \times 2 = 34$ years

Hence, the present age of Shekhar is 34 years.

33. Answer: b

Explanation:

Given:

Bill amount = Rs 10,00,000

Discount = 35%

Successive discounts = 30% and 5%

Concept Used:

Amount = Bill Amount – Discount

Calculation:

Amount after single discount = $1000000 - 35\% \text{ of } 1000000$

Amount after single discount = $1000000 - \frac{35}{100} \times 1000000 = 1000000 - 350000 = 6,50,000$
Rs

Amount after successive discount of 30% = 1000000 – 30% of 1000000

Amount after successive discount of 30% = $1000000 - \frac{30}{100} \times 1000000 = 7,00,000$ Rs

Amount after a second successive discount of 5% = 700000 – 5% of 700000

Amount after a second successive discount of 5% = $700000 - \frac{5}{100} \times 700000 = 6,65,000$ Rs

Difference between single and successive discounts = 665000 – 650000 = Rs 15,000

Hence, the difference between a single discount and successive discount is of Rs 15,000

★ Alternate Method

Concept used:

When two successive discounts X% and Y% are given,

Equivalent discount = $(X + Y - XY/100)\%$

Calculation:

Amount after single discount of 35% = $1000000 - \frac{35}{100} \times 1000000$

= 1000000 – 350000

= Rs.650,000

Equivalent discount of two successive discount of 30% and 5% –

= $[30 + 5 - (30 \times 5)/100]$

= 33.5%

Amount after equivalent discount = $1000000(1 - 33.5/100)$

= 1000000 × 0.665

= Rs.665,000

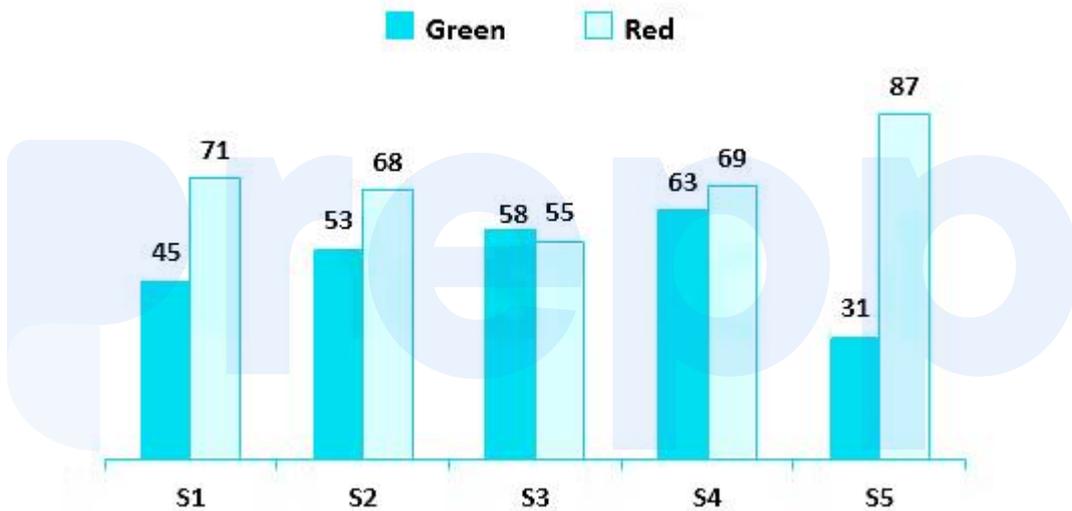

∴ Difference between them = 665,000 - 650000 = Rs.15000

∴ Required difference is Rs.15000.

34. Answer: d

Explanation:

Given:

Calculation:

Total number of Green bottles by 5 shops = 45 + 53 + 58 + 63 + 31

Total number of Green bottles by 5 shops = 250

Total number of Red bottles by 5 shops = 71 + 68 + 55 + 69 + 87

Total number of Red bottles by 5 shops = 350

Ratio of total Green bottles to Red bottles = $\frac{250}{350} = \frac{5}{7} = 5 : 7$

Hence, the ratio of the total number of green bottles to the red bottles is 5 : 7.

35. Answer: d

Explanation:

Given:

Profit earned when the painting sold at ₹1200 = 15 times the loss incurred when sold at ₹240

Concept Used:

Cost Price = SP + Loss

Selling Price = $\frac{100 + \text{Profit}\%}{100} \times CP$

Calculation:

Let the loss incurred when sold at ₹240 be ₹x.

So, Cost Price = 240 + x

Profit made when the painting sold at ₹1200 = 15x

Cost Price = 1200 - 15x

Then, 240 + x = 1200 - 15x

⇒ x + 15x = 1200 - 240 = 960

⇒ 16x = 960

⇒ x = 960 ÷ 16 = 60

Cost Price of painting = 240 + x = 240 + 60 = Rs.300

To make a profit of 40%,

Selling Price of the painting = $\frac{100 + 40}{100} \times 300 = \frac{140}{100} \times 300 = ₹420$

Hence, the painting should be sold at ₹420 to make the profit of 40%.

36. Answer: c

Explanation:

Given:

Number of days in which 10 horses can graze a field = 14 days

Number of days in which 10 sheep can graze a field = 28 days

Concept Used:

Efficiency = Work Done \div Total Time Taken

Calculation:

Number of days taken by 5 horses to graze a field = $14 \times 2 = 28$ days

According to the question,

\Rightarrow 10 sheep can graze a field in = 28 days

So, 5 horses = 10 sheep

Capacity of 1 horse = $\frac{10}{5} = 2$ sheep

Total time taken by 5 horses and 10 sheep to graze a field means,

\Rightarrow 5 horses = 10 sheep

Total = 10 + 10 = 20 sheep

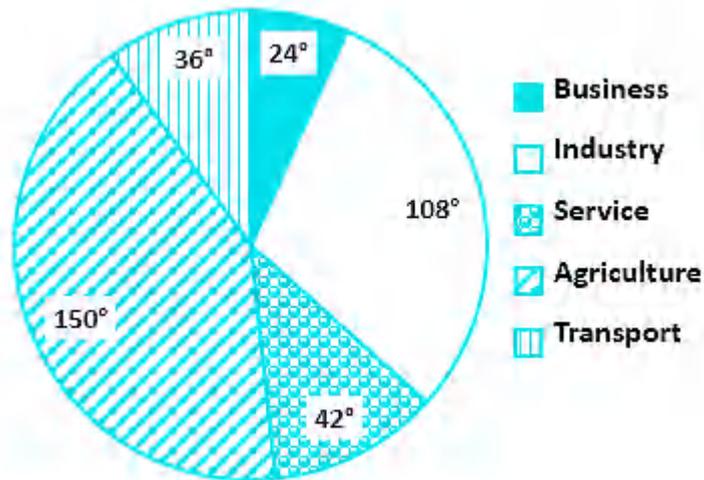

Therefore, total time taken by 20 sheep to graze a field = $28 \times \frac{10}{20} = 14$ days

Hence, 5 horses and 10 sheep can graze the field in 14 days.

37. Answer: d

Explanation:

Given:

Total number of employees = 5,00,040

Calculation:

Total share for all sectors = $36 + 24 + 108 + 42 + 150 = 360$

Degree for service sector = 42

Number of people working in the service sector = $\frac{42}{360} \times 500040 = 58,338$

Degree for business sector = 24

Number of people working in the business sector = $\frac{24}{360} \times 500040 = 33,336$

Difference in the number of people in both of these sectors = $58,338 - 33,336 = 25,002$

Hence, there are 25,002 more people working in the service sector compared to the business sector.

38. Answer: d

Explanation:

Given:

Length of cuboidal room = 80 m

Breadth of cuboidal room = 70 m

Height of cuboidal room = 80 m

Cost of painting per square meter = 50 paise

Concept Used:

Area of four walls of cuboid = $2 \times (\text{Length} + \text{Breadth}) \times \text{Height}$

Calculation:

Area of four walls of cuboid = $2 \times (80 + 70) \times 80 \text{ m}^2$

Area of four walls of cuboid = $2 \times 150 \times 80 = 24000 \text{ m}^2$

Total cost of painting four walls of room = ₹ $(24000 \times \frac{50}{100})$

Total cost of painting four walls of room = ₹12,000

Hence, the total cost of painting for the four walls of cuboidal room is ₹12,000.

39. Answer: d

Explanation:

Given:

Present population = 14580

Increase in population every year = 8%

Calculation:

Let the population of town 2 years ago be x .

After the first

t -year increase,

$$\text{Population after 1 year} = x + 8\% \text{ of } x = x + \frac{8}{100} \times x$$

$$\text{Population after 1 year} = x + \frac{2x}{25} = \frac{27x}{25}$$

After the second-year increase,

$$\text{Population after 2 years} = \frac{27x}{25} + \frac{8}{100} \times \frac{27x}{25} = \frac{27x}{25} + \frac{54x}{625}$$

$$\text{Population after 2 years} = \frac{675x+54x}{625} = \frac{729x}{625}$$

Now, According to the question,

$$\Rightarrow \frac{729x}{625} = 14580$$

$$\Rightarrow x = \frac{14580 \times 625}{729} = 20 \times 625 = 12500$$

Hence, the population of the town 2 years ago was 12,500.

40. Answer: b

Explanation:

Given:

Cost price of a notebook = ₹120

Profit percentage = 40%

Concept Used:

$$\text{Selling price} = \frac{100 + \text{Profit}\%}{100} \times CP$$

Calculation:

$$\text{Selling price of a notebook} = \frac{100+40}{100} \times 120$$

$$\text{Selling price of a notebook} = \frac{140}{100} \times 120 = ₹168$$

Nominal profit made on the sale of each notebook = Selling Price – Cost Price

$$\text{Nominal profit} = 168 - 120 = ₹48$$

Hence, the nominal profit made on the sale of each notebook is ₹48

41. Answer: d

Explanation:

Given:

The speed of a motor-boat in still water and the speed of the current of water are in the ratio 20 : 4. To go a certain distance along the current the boat takes 4 hours.

Concept used:

Speed of boat along the current = speed of boat in still water + speed of current of water

Speed of boat against the current = speed of boat in still water – speed of current of water

Speed = Distance/Time

Calculations:

Let the Speed of boat in still water be 20x then speed of water current is 4x.

And let the certain distance covered be d.

Speed of boat along the stream

$$= 20x + 4x$$

$$= 24x \text{ km/h}$$

Time taken = 4 hours

So, According to question,

Distance = speed \times time

$$\Rightarrow d = 24x \times 4$$

$$= 96x \text{ km}$$

Hence, the distance traveled is 96x km.

Speed of the boat against the stream

$$= 20x - 4x$$

$$= 16x \text{ km/h}$$

Now, according to concept used:

Time = Distance/Speed

$$\text{Time} = 96x/16x = 6 \text{ hours}$$

Hence, The Required time is 6 hours.

Your Personal Exams Guide

42. Answer: d

Explanation:

Given:

Speed of man = 22 km/h

Time is taken to travel = 3 minutes

Concept Used:

Speed = Distance/Time

Calculation:

Firstly, convert km/h into m/s by multiplying by $\frac{5}{18}$,

$$\Rightarrow 22 \text{ km/h} = 22 \times \frac{5}{18} = \frac{55}{9}$$

Now, 3 minutes = 180 seconds

$$\text{Distance travelled by man} = \frac{55}{9} \times 180 = 55 \times 20 = 1100 \text{ metres}$$

Hence, the distance travelled by the man is 1100 metres.

43. Answer: a

Explanation:

Given:

A is 25% less than B

B is 30% more than 120

Calculation:

$$\text{Value of B} = 120 + 30\% \text{ of } 120$$

$$\text{Value of B} = 120 + \frac{30}{100} \times 120 = 120 + 36 = 156$$

$$\text{Value of A} = 156 - 25\% \text{ of } 156$$

$$\text{Value of A} = 156 - \frac{25}{100} \times 156 = 156 - 39 = 117$$

Hence, the required value of A is 117.

44. Answer: d

Explanation:

Given:

Average weight of A, B, C, D = 33 kg

C is 12 kg lighter than A

B is 6 kg heavier than C

D is 10 kg less than that of C

Concept Used:

Average = Sum of values ÷ Number of values

Calculation:

Let the value of A be x kg.

Weight of C = $x - 12$ kg

Weight of B = $x - 12 + 6 = x - 6$ kg

Weight of D = $x - 12 - 10 = x - 22$ kg

So, average of A, B, C and D = $\frac{x+x-12+x-6+x-22}{4} = \frac{4x-40}{4} = x - 10$

$\Rightarrow x - 10 = 33$

$\Rightarrow x = 33 + 10 = 43$ kg

Then, Weight of A = 43 kg

Weight of D = $x - 22 = 43 - 22 = 21$ kg

Average weight of A and D = $\frac{43+21}{2} = \frac{64}{2} = 32$ kg

Hence, the average weight of A and D is 32 kg.

45. Answer: b

Explanation:

Given:

Loan Amount = ₹12,000

Rate of Interest = 8% per annum

Time = 6 months

Concept Used:

$$\text{Simple Interest} = \frac{P \times R \times T}{100}$$

Calculation:

As given, Time = 6 months

Firstly, convert it into year, 6 months = $\frac{6}{12} = 0.5$ years

$$\text{Amount to be paid after six months} = 12000 + \frac{12000 \times 8 \times 0.5}{100}$$

$$\text{Amount to be paid after six months} = 12000 + 480 = ₹12480$$

Hence, the amount to be paid after 6 months with interest is ₹12,480

Your Personal Exams Guide

46. Answer: d

Explanation:

Given:

Number of days taken by 22 boys to complete a work = 10 days

Number of days taken by 25 boys and 12 girls to complete the same work = 8 days

Calculation:

Let the one day work of 1 boy = x

Let the one day work of 1 girl = y

So, Total work done each day by 22 boys = $22x$

$$\Rightarrow 22x = \frac{1}{10}$$

$$\Rightarrow x = \frac{1}{10 \times 22} = \frac{1}{220}$$

Now, According to the question for second condition,

$$\Rightarrow 25x + 12y = \frac{1}{8}$$

Putting the value of x , we get

$$\Rightarrow 25 \times \frac{1}{220} + 12y = \frac{1}{8}$$

$$\Rightarrow 12y = \frac{1}{8} - \frac{5}{44}$$

\Rightarrow Taking LCM of the denominators,

$$\Rightarrow 12y = \frac{44-40}{352} = \frac{4}{352} = \frac{1}{88}$$

$$\Rightarrow y = \frac{1}{88 \times 12}$$

Number of days taken by 6 girls = $6y = 6 \times \frac{1}{88 \times 12} = \frac{1}{176} = 176$ days

Hence, the number of days taken by 6 girls, working together, to complete the work is 176 days.

★ Shortcut Trick

Let the efficiency of a boy = B

The efficiency of a girl = G

Then

$$\text{Total work} = 22 \times 10 \times B = (25 \times B + 12 \times G) \times 8$$

$$20 \times B = 96 \times G$$

$$B/G = 24/5$$

$$B = 24 \text{ and } G = 5$$

$$\text{So total work} = 22 \times 10 \times 24$$

$$\text{The efficiency of a girl} = 5$$

$$\text{So days required} = 22 \times 10 \times 24 / (5 \times 6) = 22 \times 8 = 176 \text{ days}$$

47. Answer: b

Explanation:

Given:

$$(92 \times 27 + 32 \times 7 + ?)^{\frac{1}{2}} = 59$$

Calculation:

$$\Rightarrow (92 \times 27 + 32 \times 7 + ?)^{\frac{1}{2}} = 59$$

Squaring both sides,

$$\Rightarrow 92 \times 27 + 32 \times 7 + ? = 59^2$$

$$\Rightarrow 81 \times 27 + 9 \times 7 + ? = 3481$$

$$\Rightarrow 2187 + 63 + ? = 3481$$

$$\Rightarrow ? = 3481 - 2250$$

$$= 1231$$

Hence, the required value is 1231.

48. Answer: a

Explanation:

Given:

Ratio of three numbers = 1 : 2 : 3

Product of three numbers = 1296

Calculation:

Let the numbers be x , $2x$ and $3x$.

Product of three numbers = $x \times 2x \times 3x = 6x^3$

$$\Rightarrow 6x^3 = 1296$$

$$\Rightarrow x^3 = \frac{1296}{6} = 216$$

$$\Rightarrow x = 6$$

So, First number = $x = 6$

Second Number = $2x = 2 \times 6 = 12$

Third Number = $3x = 3 \times 6 = 18$

Sum of all numbers = $6 + 12 + 18 = 36$

Hence, the sum of the three numbers is 36.

49. Answer: b

Explanation:

Given:

Average of set of b numbers = a

Average of set of a numbers = b

Concept Used:

Average = Total sum of values \div Number of values

Calculation:

Sum of set of b numbers = Average \times Total values

Sum of set of b numbers = $a \times b = ab$

Sum of set of a numbers = $b \times a = ba$

Total Sum of all numbers = $ab + ba = 2ab$

Total values = $a + b$

Average of all numbers = $\frac{2ab}{a+b}$

Hence, the average of all the numbers taken together is $2ab \div (a + b)$.

50. **Answer: c**

Explanation:

Given:

Area of Square = 1296 cm^2

Radius of circle = $\frac{7}{6}$ of the length of a side of the square

Concept Used:

Area of Square = Side 2

Perimeter of Square = $4 \times$ Side

Circumference of Circle = $2\pi r$

Calculation:

Area of Square = Side $^2 = 1296$

$$\text{Side} = \sqrt{1296} = 36 \text{ cm}$$

$$\text{Now, Radius of circle} = \frac{7}{6} \times 36 = 42 \text{ cm}$$

$$\text{Perimeter of Square} = 4 \times \text{Side}$$

$$\text{Perimeter of Square} = 4 \times 36 = 144 \text{ cm}$$

$$\text{Circumference of circle} = 2\pi r$$

$$\text{Circumference of circle} = 2 \times \frac{22}{7} \times 42 = 44 \times 6 = 264 \text{ cm}$$

$$\text{Ratio of Perimeter and Circumference} = \frac{144}{264} = \frac{6}{11} = 6 : 11$$

Hence, the ratio of the perimeter of square and circumference of circle is 6 : 11.

51. Answer: d

Explanation:

The correct answer is- 'Ameliorate'.

★ Key Points

- In the given options, 'Ameliorate' is the word that can be used as a one-word substitute for the given group of words.
- We use the word 'Ameliorate' to mean - **make something better** .
 - **Example** - Some significant steps have been taken to *ameliorate* the situation caused by flood.
- Thus, the correct option is- **4) Ameliorate**.

★ Additional Information

Let us understand the meaning and usage of other options as well.

- **Judge**- to express **an opinion about someone** or something based on the knowledge you have.
 - **Example**- We should not *judge* anyone by their physical appearance.

- **Malign-** to publicly **criticize someone** or something, especially unfairly.
 - **Example-** She was recently *maligned* in the gossip columns of several newspapers due to her affairs.
- **Castigate-** to to **harshly criticize ,condemn** someone or something.
 - **Example** - The teacher was *castigated* for his new methods of teaching children.

52. Answer: b

Explanation:

The correct answer is- 'view of' .

★ Key Points

- In the given options, 'view of' will improve the underlines part of the sentence.
- The given sentence has a transitive verb - 'view' followed by an article- 'the'.
- Here, the transitive verb - 'view' , is in need of a preposition - 'of'.
- We use the article- 'the' to refer to some **specific nouns**.
 - **Example-** They climbed **the** Great Himalayan mountains last year.
- Thus, *option 2*) is the correct option.

★ Additional Information

- A **Transitive verb** always **requires an object** to make a complete sentence.
- The structure for transitive verbs- **[subject] + [transitive verb] + [direct object]**
 - **Example** - He made cookies for our hiking trip.

53. Answer: d

Explanation:

The correct answer is- ' had gathered' .

★ Key Points

- In the given options, the correct option that will improve the given part of sentence is- '**had gather**' .
- The given sentence is in **past perfect tense**.
- In past perfect tenses, we use the structure- **Subject+ 'had + past participle of verb' + Object**
 - **Example** – She had lived in Delhi for three years.

Thus, **the correct sentence is** : *An immense crowd had gathered to witness this ceremony.*

54. **Answer: c**

Explanation:

The correct answer is – '**take after**' .

★ Key Points

- In the given options, the phrase- '**takes after**' will improve the given part of sentence.
- The phrase- '**take after**' is used **to resemble an older member of the family in personality or appearance, or habit.**
 - **Example**- Rachel is very pretty. She definitely *takes after* her mother.
- Thus, the correct option is **option 3**).

The correct sentence: *When it comes to love of sports, he takes after his father.*

★ Additional Information

Lets us understand the meaning and usage of the other phrases too.

- **Takes from**- **To acquire** , receive, or steal (something) from someone or something.
 - **Example**- *The thief had a policy of only taking from the rich houses.*

- **Takes by-** It is used to refer – **something to be attracted by** a particular idea, plan, or person or **like someone** .
 - **Example-** The puppy was so adorable that she got *taken by* it.

55. Answer: b

Explanation:

The correct answer is- 'option 2)' .

★ Key Points

- in the given options, the incorrectly spelt word is – '**Arachic**' .
- The correct spelling of the word is – '**Archaic**' .
- The word ' Archaic' is used to mean- very old fashioned.
- Example – *The walls are frequently covered in very basic, red and black archaic artwork.*
- Thus, *option 2)* is the correct option.

★ Additional Information

Let us understand the meaning of other options.

- **Bombastic-** **High-sounding , pompous, showy**
 - Example- He soon found that making a *bombastic* movie was something he never thought of.
- **Benign-** **Kind or gentle.**
 - Example- There was a *benign* smile on her face when she came to greet us.
- **Artless-** **simple, lacking art.**
 - Example- Her uncomplicated, *artless* appeal immediately charmed us over.

56. Answer: d

Explanation:

The correct answer is- option 4) .

★ Key Points

- The given sentence has 'no error'.
- Thus, the sentence- '*Businesses are asking employees to work from home*' is grammatically correct.

57. Answer: a

Explanation:

The correct answer is- 'A clumsy person in a delicate situation ' .

★ Key Points

- In the given options, *option 1*) gives the most appropriate meaning of the underlined idiom.
- The idiom- '*a bull in a China shop*' is used to refer to a person who frequently makes mistakes or damages things when circumstances requires careful thinking or behavior.
 - **Example-** In his capacity as a politician, he was *a bull in a china shop* and frequently had to apologize for his abrasive language.
- Thus, *option 1*) is the correct answer.

58. Answer: d

Explanation:

The correct answer is- 'Matinee' .

★ Key Points

- In the given options, '**Matinee**' can be used as one-word substitute for the given group of words.
- We use the word '**Matinee**' to refer – '*a performance or a show that takes place in the afternoon*'.
 - **Example**– His matinee presentation was open to the entire school.
- Thus, **Option 4)** is the correct answer.

59. Answer: a

Explanation:

The correct answer is – '**Navigate**'.

★ Key Points

- In the given options, '**Navigate**' can be used as a one-word substitute for the given group of words.
- We use the word– '**Navigate**' to refer to '*an ability to find ways and directions*'.
 - **Example**–Our brand-new vehicle includes a built-in navigation system.
- Thus, the correct option is '**option 1)**'.

★ Additional Information

Let us understand the meaning and usage of other option.

- **Annotate**– It is used **to add explanations or remarks as notes in a book or text** .
 - **Example**– The reader is free to make annotations in the textbook and highlight any passages they want.

60. Answer: c

Explanation:

The correct answer is– '**perils**' .

★ Key Points

- In the given options, '**perils**' is the most appropriate option to fill in the blank.
- We use the word '**peril**' to refer to '**an event or factor that can cause a loss**' .
 - **Example**-*I managed to survive despite of the peril.*
- Thus, the correct option is **option 3**).

The correct sentence:*It was a long and dangerous journey in those unsettled days. The pilgrim had to face peril by land and sea.*

★ Additional Information

Let us understand the meaning and usage of other options.

- **Respite**- It means to rest or relief.
 - **Example**-*She works continuously without any respite.*
- **Exposure**- It means disclosure.
 - **Example**-*The face was tanned due to exposure to sun.*

61. Answer: d

Explanation:

The correct answer is **Reluctant**.

★ Key Points

- The most appropriate synonym of the given option is **Reluctant**.
- The word **hesitant** means **stentative, unsure, or slow in acting or speaking**.
- The word similar words are **Reluctant, uncertain, dubious etc.**
- Thus the correct synonym is **Reluctant**.

★ Additional Information

- The antonym of the Hesitant word is **certain, decisive, confident** etc.

62. Answer: d

Explanation:

The correct option is **She didn't knew.**

★ Key Points

- The part that contains the error is **She didn't knew.**
- This sentence is written in **past indefinite tense**. Its structure for negative sentences would be –
 - S + Did not + v1 + O
- In the given sentence verb's 1 form will be used, not the 2nd form.
- Thus the correct sentence would be **She didn't know.**

★ Additional Information

- Some examples of Past indefinite sentences are–
 - They **did** not go .
 - She **went** to a party.
- In the positive sentence, 2nd form of the verb would be used.
- Wherever use **did** , there do no use of the verb's 2nd form. There would be 1st form of the verb.

63. Answer: d

Explanation:

The correct answer is **No improvement required.**

★ Key Points

- The given sentence is in the **present continuous tense**.
- Thus the above sentence is correct, there is **No improvement required.**

★ Additional Information

- The sentence structure for the present continuous form would be-
 - S + is/are+ verb+ ing +O
 - Examples- Many Indians are facing unemployment nowadays.

64. Answer: d

Explanation:

The correct answer is I have receive perhaps four.

★ Key Points

- The part that contains errors from the given options is I have receive perhaps four.
- In this part **verb's third form** will be used. Because it is the part of the present perfect sentence.
- Thus the correct sentence would be I have received perhaps four.

★ Additional Information

- The structure for the present perfect sentence would be-
 - S + has/have+V₃ +O (Positive Sentences)
 - Examples- I have **done** my work.

65. Answer: a

Explanation:

The correct answer is **Verbose**.
