## Section : Module I Mathematical Abilities

**Q.1** The diagonals of three faces of a rectangular parallelepiped that meet at a single corner measure  $\sqrt{5}$  cm,  $\sqrt{10}$  cm, and  $\sqrt{13}$  cm. What is the volume of this parallelepiped?

Ans

✗ 1.  $12 \text{ cm}^3$

✗ 2.  $24 \text{ cm}^3$

✓ 3.  $6 \text{ cm}^3$

✗ 4.  $18 \text{ cm}^3$

Question ID : 1442742913

Option 1 ID : 14427411642

Option 2 ID : 14427411644

Option 3 ID : 14427411641

Option 4 ID : 14427411643

Status : Not Answered

Chosen Option : --

**Q.2** In a triangle  $\triangle PQR$ ,  $\angle R = 62^\circ$ . The perpendicular bisector of PQ at S meets QR at T. If  $\angle TPR = 38^\circ$ , what is the measure of  $\angle PQR$ ?

**Ans**

☐ 1.  $60^\circ$

☐ 2.  $80^\circ$

☐ 3.  $35^\circ$

☒ 4.  $40^\circ$

**Q.26** Read the following passage carefully and answer the questions based on the passage:

Pride and Prejudice by Jane Austen is a classic known for its humor and complex characters. The famous first sentence of the book, "It is a truth universally acknowledged, that a single man in possession of a good fortune, must be in want of a wife," begins to set up all of the major themes of money, status, and marrying well that are prevalent in 19th-century England. The Bennet family, particularly Elizabeth Bennet, a smart and strong-willed heroine, is the subject of Austen's commentary on the societal imperative for women to marry well and thereby have a stable income.

The title itself is quite meaningful, as it first indicates the character flaws that drive much of the conflict in this novel, namely Darcy's pride and Elizabeth's prejudice. In fact, Mr. Fitzwilliam Darcy, being a rich and high-ranking person, first of all shows a haughty character, thereby being very superior by virtue of his class. Elizabeth, having been offended by his initial lack of warmth, as well as having been misled by the deceiving Mr. Wickham, very quickly showed prejudice against him.

Traces the story of each as they navigate these weaknesses. Darcy needs to lower his pride to appreciate the value of Elizabeth's inferior standing, though she must see the strength of his superior qualities.

Austen employs irony and satire liberally to point out the absurdities of the class structure. Personages like the obsequious Mr. Collins and the imperious Lady Catherine de Bourgh symbolize the hard and silly aspects of class consciousness. The sojourn at Darcy's grand estate, Pemberley, is an important defining instance in which the splendor of the property and the favorable reports of his servants compel Elizabeth to revise her earlier opinion and realize the truth of Darcy's goodness.

In the final analysis, the novel promotes love marriages, couples like Jane and Bingley, and Elizabeth and Darcy, who have successful marriages because of love, in contrast to couples who marry for convenience (Charlotte Collins and Mr. Collins) or those who are full of passion but irresponsible (Lydia and Wickham).

What are the major themes expressed by the first line of the novel?

Ans

- ☒ 1. Nature and the countryside
- ☒ 2. Love & War
- ☒ 3. Wealth, status, and marriage
- ☒ 4. Education and morality

How is the character of Lady Catherine de Bourgh employed in the novel as a criticism of society?

Ans

☐ 1. She symbolizes ideal maternal love and wisdom.

☐ 2.

She represents the struggle of the working class against the landed gentry.

☐ 3. She is purely comic relief and has no other significance.

☒ 4. She represents social tyranny and class prejudice.

**Q.31** Read the following passage carefully and answer the questions based on the passage:

The Viksit Bharat - Guarantee for Rozgar and Aajeevika Mission (Gramin) Act (VB-GRAM G), 2025, has been replaced by the Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA). The goal of this modification is to improve Article 21 of the Indian Constitution, which protects the right to life. MGNREGA has improved socioeconomic conditions by facilitating wage payments, providing unemployment benefits, and promoting equal earnings. There has been sustainable development, and research has confirmed the impact of this program to raise earnings, alleviate poverty, and encourage school enrollment. In the past five years, women have comprised 58% of the workforce, significantly contributing to rural development, particularly during the COVID-19 pandemic. Given these factors, it is important to assess both the benefits and current challenges of the system. Despite MGNREGA's successes, the program has faced implementation challenges, mainly due to inadequate funding, as acknowledged by the Ministry of Finance. Delays in wage payments and fewer work opportunities have resulted from this lack of funds. Recent rules, such as introducing an attendance application that uses photos, have created new problems and made corruption easier. Due to these issues, the VB-GRAM G Act has introduced important changes, including sections 5(1) and 4(5), which give the Union Government greater control over the public works program.

What might be the author's overall purpose for discussing the development from MGNREGA to the VB-GRAM G Act?

**Ans**  1.

Argue that a transition from a rights-based framework to an AI-based system is necessary to achieve efficient results for rural communities.

 2.

Argue that technology-based interventions will necessarily increase the levels of transparency and accountability associated with public programs

 3.

Emphasize how institutional reforms try to maintain constitutionally provided rights while recognizing administrative weaknesses

 4.

Argue that a decrease in the role of government can logically solve the inherent shortcomings in rural employment patterns

Due to these issues, the VB-GRAM G Act has introduced important changes, including sections 5(1) and 4(5), which give the Union Government greater control over the public works program.

The author's tone regarding new rules (e.g., photo-based attendance) is best described as?

**Ans**

✓ 1.

Cautiously critical, admitting the benefits of innovation while pointing out the dangers of abuse in bureaucracies

✗ 2.

It is a direct rejection that states tech solutions do not work in rural welfare activities because the officials are illiterate

✗ 3.

Detachedly descriptive, outlining reforms to procedures without evaluative judgments.

✗ 4.

Digital interventions will resolve longstanding governance issues.

What can be reasonably inferred about the relationship between women's participation and rural resilience during the pandemic?

**Ans**  1.

The fact that they were active seemingly led to the acceleration of the community's fiscal problems because it resulted in program expenditure being amplified during a time of uncertainty.

 2.

Their significant involvement contributed to the continuation of the community through the maintenance of the local economy in spite of the general economic disruptions that were happening.

 3.

Their involvement could have led to a decrease in total program productivity owing to the fact that the local populace was heavily burdened with expanded caregiving during the pandemic.

 4.

Their intensified appearance might have worsened the existing support structures that were failing in the health crisis.

**Q.34** Read the following passage carefully and answer the questions based on the passage:

The Viksit Bharat - Guarantee for Rozgar and Aajeevika Mission (Gramin) Act (VB-GRAM G), 2025, has been replaced by the Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA). The goal of this modification is to improve Article 21 of the Indian Constitution, which protects the right to life. MGNREGA has improved socioeconomic conditions by facilitating wage payments, providing unemployment benefits, and promoting equal earnings. There has been sustainable development, and research has confirmed the impact of this program to raise earnings, alleviate poverty, and encourage school enrollment. In the past five years, women have comprised 58% of the workforce, significantly contributing to rural development, particularly during the COVID-19 pandemic. Given these factors, it is important to assess both the benefits and current challenges of the system. Despite MGNREGA's successes, the program has faced implementation challenges, mainly due to inadequate funding, as acknowledged by the Ministry of Finance. Delays in wage payments and fewer work opportunities have resulted from this lack of funds. Recent rules, such as introducing an attendance application that uses photos, have created new problems and made corruption easier. Due to these issues, the VB-GRAM G Act has introduced important changes, including sections 5(1) and 4(5), which give the Union Government greater control over the public works program.

What does the author's discussion of lack of funding primarily indicate?

**Ans**  1.

Local administrations limit opportunities so as to have control over the release of finances.

 2.

Administrative inefficiencies and implementation challenges due to a shortage of funding.

 3.

Resource allocation practices are highly effective but seem problematic due to certain short-term fiscal fluctuations

 4.

Decentralized authority has caused divergent effects that will certainly lead to a reduction in job guarantees.

Due to these issues, the VB-GRAM G Act has introduced important changes, including sections 5(1) and 4(5), which give the Union Government greater control over the public works program.

What does "sustainable development" mean most nearly in the context of the passage?

**Ans**  1.

Outcomes that emphasize the creation of jobs in the short term, even if there are uncertain long-term consequences for individual welfare

 2.

Discusses advancements that are characterized by fast infrastructure development without consideration of administrative viability.

 3.

Improvements relating to long-term socioeconomic benefits for rural households via stable program design

 4.

Strategies that place emphasis mainly on technological diffusion as a principal means of rural transformation

**Q.36** Read the following passage carefully and answer the questions based on the passage:

"Bank failures raise serious concerns about supervisory oversight." The case studies of Credit Suisse and Silicon Valley Bank highlight the deficiencies in supervisory supervision. In many instances, supervisors are hesitant to come into conflict with bank management when weaknesses are identified, preferring to do nothing rather than take corrective action at a point in time when key issues are building into a problem. Regulators must adopt an attitude change in which they place more emphasis on the results rather than the details. Overemphasis on trivial matters might lead regulators to overlook more fundamental issues, such as whether financial institutions have adequate capital in case of a shock. Regulating requirements must be simplified. Complex regulation requirements in relation to capital may overlook systemic risk in their approaches when stress tests result in activities gravitating towards less heavily regulated institutions in the non-bank sector. Improved supervisory and bank communications would promote better supervision as a tool for managing risk. Recommendations include being up front about supervisory goals, openness to change within the bank organization, and increased transparency in supervisory contracts as a way of promoting swift problem resolution. These would aid shareholders as well as the overall economy. In conclusion, rather than pursuing a micro-management strategy, a move towards a clearly defined regulation that supports positive incentives is what is needed to ensure that banks behave within frameworks that promote financial stability.

Which of the following is most true in regard to stating the structure of logic found in the author's conclusion?

**Ans**  1.

It proposes that bank managers should be given more freedom in setting.

 2.

It suggests a complete deregulation of the banking system to promote a competitive world economy.

 3.

It urges a transition from procedural pedantry towards a results-oriented strategic framework.

 4.

It suggests that the responsibility for assurance should lie with organizations rather than with outsiders.

**Q.37** Read the following passage carefully and answer the questions based on the passage:

"Bank failures raise serious concerns about supervisory oversight." The case studies of Credit Suisse and Silicon Valley Bank highlight the deficiencies in supervisory supervision. In many instances, supervisors are hesitant to come into conflict with bank management when weaknesses are identified, preferring to do nothing rather than take corrective action at a point in time when key issues are building into a problem. Regulators must adopt an attitude change in which they place more emphasis on the results rather than the details. Overemphasis on trivial matters might lead regulators to overlook more fundamental issues, such as whether financial institutions have adequate capital in case of a shock. Regulating requirements must be simplified. Complex regulation requirements in relation to capital may overlook systemic risk in their approaches when stress tests result in activities gravitating towards less heavily regulated institutions in the non-bank sector. Improved supervisory and bank communications would promote better supervision as a tool for managing risk. Recommendations include being up front about supervisory goals, openness to change within the bank organization, and increased transparency in supervisory contracts as a way of promoting swift problem resolution. These would aid shareholders as well as the overall economy. In conclusion, rather than pursuing a micro-management strategy, a move towards a clearly defined regulation that supports positive incentives is what is needed to ensure that banks behave within frameworks that promote financial stability.

The use of "stress tests" by the author is an example of illustrating which of the following consequences?

**Ans**  1.

The failure of financial institutions to report their internal capital requirements accurately.

 2.

The movement of risk-related financial activities into industries that are less heavily regulated.

 3.

The direct relationship between complex regulatory obligations and long-term stability.

 4.

The enhanced clarity of communication between shareholders and bank managers.

These would aid shareholders as well as the overall economy. In conclusion, rather than pursuing a micro-management strategy, a move towards a clearly defined regulation that supports positive incentives is what is needed to ensure that banks behave within frameworks that promote financial stability.

Why are supervisors often slow to act when banks have problems?

**Ans**

☒ 1. They use a secret strategy to keep their contracts private.

☒ 2.

They are confused because modern bank rules are too simple.

☒ 3.

They do not have the legal power to stop a financial crash.

☒ 4. They prefer to avoid conflict instead of fixing risks early.

These would aid shareholders as well as the overall economy. In conclusion, rather than pursuing a micro-management strategy, a move towards a clearly defined regulation that supports positive incentives is what is needed to ensure that banks behave within frameworks that promote financial stability.

What would "positive incentives" do for the banking system?

**Ans** ✗ 1.

Make bank rules much more complicated and harder to follow.

✗ 2. Bring back micro-management and focus on tiny details.

✗ 3.

Stop banks and regulators from talking to each other often.

✔ 4.

Help banks behave in a way that keeps the economy stable.

These would aid shareholders as well as the overall economy. In conclusion, rather than pursuing a micro-management strategy, a move towards a clearly defined regulation that supports positive incentives is what is needed to ensure that banks behave within frameworks that promote financial stability.

The tone with which the author approaches the current situation of "complex regulation" is best described as:

**Ans**  1.

Hopeful that it will eventually help find hidden money problems.

 2.

Uninterested in how these rules change where money is stored.

 3.

Critical because complicated rules can actually cause more risk.

 4.

Impressed by how much attention supervisors pay to tiny details.

**Q.41** In the following question, some of the words in the passage have been left out. Read the passage carefully and choose the correct word for each blank, out of the four alternatives and fill in the blanks.  
After falling consistently \_\_\_\_\_ (1) the U.S. dollar for a major part of the year, the rupee has \_\_\_\_\_ (2) somewhat over the last few weeks. It has risen by almost 5% from its lowest levels \_\_\_\_\_ (3) in October. Even with this recent improvement, the rupee is still down about 11% since the start of the year. The rupee's performance has been closely \_\_\_\_\_ (4) to global crude oil prices. This makes sense, as imported oil accounts for about 80% of India's total demand. The value of the rupee dropped when oil prices climbed earlier this year, a trend that lasted until early October. Since then, as global crude prices have fallen, the rupee has \_\_\_\_\_ (5) against the dollar.

What should come in blank (1) ?

Ans

☐ 1. for

☒ 2. against

☐ 3. of

☐ 4. with
