Vidyasagar's contribution to the making of modern India is many sided. He evolved a new methodology of teaching Sanskrit. He wrote a Bengali primer which is used till this day. His writings helped in the evolution of a modern prose style in Bengali. He opened the gates of the Sanskrit college to non-brahmin students for he was opposed to the monopoly of Sanskrit studies that the priestly caste was enjoying at the time. He was determined to break the priestly monopoly of scriptural knowledge. To free Sanskrit studies from the harmful effects of self-imposed isolation, he introduced the study of Western thought in the Sanskrit College. He also helped found a college which is now named after him.

Above all Vidyasagar is remembered gratefully by his countrymen for his contribution to the uplift of India's downtrodden womanhood. Here he proved a worthy successor to Rammohun Roy. He waged a long struggle in favour of widow remarriage. His humanism was aroused to the full by the sufferings of the Hindu widows. To improve their lot he gave his all and virtually ruined himself. In 1855, he raised his powerful voice, backed by the weight of immense traditional learning, in favour of widow remarriage. Soon a powerful movement in favour of widow remarriage was started which continues till this day. Later in 1855, a large number of petitions from Bengal, Madras, Bombay, Nagpur and other cities of India were presented to the government asking it to pass an act legalising the remarriage of widows. This agitation was successful and such a law was enacted.

The first lawful Hindu widow remarriage among the upper castes in our country was celebrated in Calcutta on 7 December 1856 under the inspiration and supervision of Vidyasagar. Widows of many other castes in different parts of the country already enjoyed this right under customary law.
