Select the most appropriate option from the given alternatives:

It's really something from the past—
when you and I split up
without any regrets—
just one thing that I don't quite understand.

When we were saying our farewells
and our house was up for sale
the empty pots and pans strewn across the courtyard—
perhaps they were gazing into our eyes
and others that were upside down—
perhaps they were hiding their faces from us.

A faded vine over the door,
perhaps it was confiding something to us
—or grumbling to the faucet.

Things such as these
never cross my mind;
