Read the following passage and answer the next five questions by choosing the correct options:-

Kalidasa's status as the major poet and dramatist in classical Sanskrit literature is unquestioned. Once, when poets were counted, Kalidasa occupied the little finger; the ring finger remains unnamed true to its name; for his second has not been found.

That is high praise. Kalidasa's accomplishment is distinguished not only by the excellence of the individual works, but by the many-sided which the whole achievements displays. He is a dramatist, a writer of epic and a lyric poet of extraordinary scope. In his hands the language attained a remarkable flexibility, becoming an instrument capable of sounding many moods and nuances of feeling; a language that is limpid and flowing, musical, uncluttered by the verbal virtuosity indulged in by writers who followed him; yet, remaining a language loaded in every the rift with the rich ores of the literacy and mythical allusiveness of his cultural heritage. By welding different elements to create new genres, his importance as an innovator in the history of Sanskrit literature is clearly established. The brilliant medieval lyric poet, Jayadeva, in praising Kalidasa i-kula-guru (master of Poets), conveys his recognition of this aspect of the poet's greatness. Bana, the celebrated author of the prose-romance Kadambari exclaimed,

Who is not delighted when Kalidasa's perfect verses spring forth their sweetness, like honey-filled cluster of flowers?

Thus drawing attention to the exquisite craftsmanship of the poet's verse for nearly two millennia, Kalidasa's works have been read with deep appreciation, widely commented upon and lavishly praised. It would be safe to assume that the poet enjoyed success, fame and affluence during this lifetime. We sense no hint of dissatisfaction in his works, no sign of bitterness at not receiving due recognition. Yet, we do not possess any information about him, his life and the times in which that life unfolded and fulfilled itself. All we are left with are a few legends. The poet has drawn a veil of silence round himself so complete that even his real name is unknown to posterity.

No name is affixed to the poems and epic; they have come down to us virtually anonymous. What information we possess is derived from references to them by later poets and writers and the commentaries written on them and from inscriptions. The name is met with only in the plays, where in each prologue, the author styles himself as Kalidasa. Like others in Sanskrit literature, this name is descriptive: Vyasa, meaning 'the compiler', is the author of the Mahabharata, Valmiki, 'he who emerged from the anthill (valmika)'; of the Ramayana. Similarly Kali-dasa means the votary or servant of Kali is time in the feminine (Kala is time); the concept of time as creative principle is as old as the Vedas. 'We can then translate the name Kali-dasa as 'the servant of time', a phrase that prompts us to explore its significance.

Give below are two statements : One is labelled as **Assertion A** and the other is labelled as **Reason R** :

Assertion A : The air that rushes horizontally into a low pressure area changes into a whirling mass, because of the rotatory motion of the earth about its own axis.

Reason R : The central portion of this air mass with low pressure acts like a chimney where air gets lifted, expands, cools and finally gets condensed.

In the light of the above statements, choose the **correct answer** from the options given below :

1. Both **A** and **R** are true and **R** is the correct explanation of **A**.

कारण R: कम दबाव वाले इस वायु द्रव्यमान का मध्य भाग एक चिमनी की तरह कार्य करता है जिसमें वायु उठती है, फैलती है, ठंडी होती है और अंततः संघनित हो जाती है।

Match List I with List II

LIST I		LIST II	
A.	Dynamic Viscosity	I.	Pascal Second
B.	Force	II.	Newton
C.	Pressure	III.	Pascal
D.	Kinematic viscosity (cus unit)	IV.	Stoke

Choose the **correct answer** from the options given below:

1. A-IV, B-II, C-I, D-III
2. A-I, B-II, C-III, D-IV
3. A-II, B-I, C-III, D-IV

Give below are two statements : One is labelled as **Assertion A** and the other is labelled as **Reason R** :

Assertion A : The gradient of velocity at right angles to the flow is called the shear rate.

Reason R : Shear rate is also known as velocity gradient or strain rate.

In the light of the above statements, choose the **correct answer** from the options given below :

1. Both **A** and **R** are true and **R** is the correct explanation of **A**.
2. Both **A** and **R** are true and **R** is NOT the correct explanation of **A**.
3. **A** is true but **R** is false.

नीचे दो कथन दिए गए हैं: एक अभिकथन (Assertion A) के रूप में लिखित है और दूसरा उसके कारण (Reason R) के रूप में;

अभिकथन A: प्रवाह के समकोण पर ढाल वेग की प्रवणता को अपरुपण दर कहते हैं।

कारण R: अपरुपण दर को वेग प्रवणता विकृति दर के रूप में भी जाना जाता है।

उपरोक्त कथन के आलोक में, नीचे दिए गए विकल्पों में से सबसे उपयुक्त उत्तर का चयन कीजिए:

1. A और R दोनों सही हैं और R, A की सही व्याख्या है
2. A और R दोनों सही हैं और R, A की सही व्याख्या नहीं है
