Q52-Q61. Read the passage carefully and answer the questions that follow.

The Indian banking sector has undergone a significant transformation over the past decade, driven largely by the twin forces of digitalisation and financial inclusion. Initiatives such as the Pradhan Mantri Jan Dhan Yojana brought millions of previously unbanked citizens into the formal financial system, while the rise of the Unified Payments Interface (UPI) revolutionised the way ordinary Indians transact on a daily basis. Regional Rural Banks, established with the specific mandate of extending credit and other banking facilities to the rural and semi-urban population, have played a pivotal role in this journey. However, challenges remain. Non-performing assets, cybersecurity threats and the need to continuously upskill the workforce to keep pace with technological change are issues that the sector must address if it is to sustain the gains made so far. Analysts believe that a judicious blend of technology adoption and human-centric customer service will define the next phase of growth for Indian banks, particularly those serving rural India.
