CTET 2022 Paper 2 Maths Question Paper (Jan-13-2023) (Eng-Hin-Skt)

Total Time: 2 Hour : 30 Minute

Total Marks: 240

Instructions

Sl No.	Section Name	No. of Question	Maximum Marks
1	Child Development and Pedagogy	30	30
2	Mathematics and Science	60	60
3	English - I	30	30
4	Hindi - I	30	30
5	English - II	30	30
6	Hindi - II	30	30
7	Sanskrit - II	30	30

- 1.) A total of 150 minutes is allotted for the examination.
- 2.) The server will set your clock for you. In the top right corner of your screen, a countdown timer will display the remaining time for you to complete the exam. Once the timer reaches zero, the examination will end automatically. The paper need not be submitted when your timer reaches zero.
- 3.) There will, however, be sectional timing for this exam. You will have to complete each section within the specified time limit. Before moving on to the next section, you must complete the current one within the time limits.

Child Development and Pedagogy

1. The pace of child development _____. (+1)
- a. is uniform, standard and is disorderly.
 - b. has individual variations and is disorderly.
 - c. is uniform, standard and is somewhat sequential and orderly.
 - d. has individual variations and is somewhat sequential and orderly.
-
2. At which age are children's activities primarily focused on use of large muscles for gross motor rather than fine motor movements? (+1)
- a. Infancy
 - b. Early childhood
 - c. Adolescence
 - d. Middle childhood
-
3. The process of teaching young generation about social processes through everyday interactions is called: (+1)
- a. Sociability
 - b. Culturing
 - c. Socialization
 - d. Delayed imitation
-

4. According to Jean Piaget, the infant explores the world by coordinating sensory experiences with physical actions in _____ stage. **(+1)**

- a. Concrete operational stage
 - b. Sensori motor stage
 - c. Pre-operational stage
 - d. Formal operational stage
-

5. In Jean Piaget's theory a child who perceives car to be alive because it moves, is demonstrating: **(+1)**

- a. animistic thinking
 - b. centration
 - c. irreversibility
 - d. seriation
-

6. According to Kohlberg the last stage 'Morality of individual principles and conscience' of moral development is characterized by the individuals: **(+1)**

- a. Seeing rules as fixed and absolute
 - b. Wanting to be respected by others
 - c. Feeling that it is their duty to uphold laws and rules for their own sake
 - d. Believing that individuals must test the social laws rather than follow them blindly
-

7. As per Lev Vygotsky, when a teacher adjusts the support offered to a child to help the child reach her zone of proximal development she is using: **(+1)**

- a. Scaffolding
 - b. Conditioning
 - c. Imitation
 - d. Adaptation
-

8. Lev Vygotsky proposed that development: **(+1)**

- a. is synonymous with learning.
 - b. occurs independent of learning.
 - c. is not impacted by cultural factors.
 - d. cannot be separated from its social context.
-

9. Which of the following does not ensure child-centered teaching-learning? **(+1)**

- a. Safe and secure child-friendly school environment
 - b. Fear free environment where each child can express oneself freely
 - c. Practise of positive discipline in the classroom
 - d. Recognising students as passive recipients of knowledge.
-

10. Individuals having high _____ are typically good at reading, writing and telling stories. **(+1)**

- a. Logico-mathematical intelligence
 - b. Linguistic intelligence
 - c. Interpersonal intelligence
 - d. Musical intelligence
-

11. _____ proposes that language has a significant impact on the cognitive development of children. **(+1)**

- a. Lev Vygotsky
 - b. B.F.Skinner
 - c. Howard Gardner
 - d. Jean Piaget
-

12. Which of the following is an effective strategy to reduce gender bias in an elementary classroom? **(+1)**

- a. The teacher should ignore and dismiss gender related issues in the classroom.
 - b. The teacher should assign equal responsibilities to all children in various activities which take place inside the classroom.
 - c. The teacher should give physical tasks such as arranging the desks to boys and soft tasks such as decorating bulletin boards to girls only.
 - d. The teacher should not have much expectations from girls in science and mathematics.
-

13. In a classroom with diverse learners the teachers should: (+1)

- a. Follow a curriculum in which they include the culture and language of children in the class
- b. Promote stereotypes and biases
- c. Create rigid structures for norm based testing of children
- d. Make separate sections based on ability

14. Conducting a group discussion, a teacher ask the children to discuss the impact of the corona pandemic on children from various aspects. What type of thinking does the teacher aim to promote? (+1)

- a. Procedural learning
- b. Critical thinking
- c. Convergent thinking
- d. Rote memorization

15. Which of the following modes of assessment would NOT be used in a socio-constructivist classrooms? (+1)

- a. Collaborative projects
- b. Standardised tests
- c. Peer assessment
- d. Classroom observations

16. The philosophy of inclusive education: (+1)

- a. Promotes all practices of exclusion.
- b. Is based on the premise of having segregated schools for learners based on their abilities.
- c. Is limited to including children who are visually challenged and hearing impaired.
- d. Challenges all exclusionary policies and practices

17. In a heterogeneous classroom which has students of mixed ability, the teacher should: (+1)

- a. Use the same teaching-learning method for all.
- b. Make use of diverse teaching-learning methods
- c. Use teacher-centered teaching
- d. Practice exam directed teaching

18. Which of the following are effective adaptations for students with 'Attention Deficit Hyperactivity disorder'? (+1)

- (i) Allow students to stand while working
 - (ii) Break the task into small parts
 - (iii) Strictly enforce time limit to finish class work
 - (iv) Give one task at a time
- a. (ii), (iii), (iv)

- b.** (i), (ii), (iv)
 - c.** (i), (ii), (iii)
 - d.** (i),(ii), (iii), (iv)
-

19. Which of the following is a correctly matched pair of children and identifying characteristics? **(+1)**

- a.** Creative student-rigidity in approach to problem solving
 - b.** Autism-repetitive motor movements
 - c.** Students with learning disability-very poor memory
 - d.** Students with visual impairment-hard of hearing
-

20. In which of the following ways can a teacher promote creativity in students? **(+1)**

- (i) By asking questions that are divergent in nature
 - (ii) By being sensitive and flexible to student's unusual responses
 - (iii) Encouraging single right answer
 - (iv) Providing rigid directions to follow
- a.** (i), (ii)
 - b.** (ii), (iii)
 - c.** (iii), (iv)
 - d.** (i), (iv)
-

21. For learning to be effective the content: (+1)

- a. Should be delivered via lecture method
- b. Should be connected to the real life experiences of the students.
- c. Should be presented in disconnected chunks.
- d. Should be very challenging and much above the learning level of students.

22. **Assertion (A):** Teachers must enable children to find their voices and nurture their curiosity to do things, to ask questions and to pursue investigations. (+1)

Reason (R): Learning is an act of meaning-making and not the ability to reproduce textual knowledge.

Choose the correct option.

- a. Both (A) and (R) are true and (R) is the correct explanation of (A).
- b. Both (A) and (R) are true but (R) is not the correct explanation of (A).
- c. (A) is true but (R) is false.
- d. Both (A) and (R) are false.

23. A constructive teacher: (+1)

- a. Gives both examples and non-examples in her classroom.
- b. Gives only examples in the classroom.
- c. Refers to only non-examples to strengthen concepts
- d. Should not give both examples and non-examples in the class.

24. _____ motivate the learners to believe in themselves and work harder. **(+1)**

- a. Shame and hopelessness
 - b. Fear and anxiety
 - c. View of ability as fixed and uncontrollable
 - d. View of ability as incremental and controllable
-

25. The teacher conducts some activities aiming to evoke previous knowledge of students at the starting of teaching-learning process. Which of the following is NOT correct in the context of these activities? **(+1)**

- (i) They helps in building connections of knowledge.
- (ii) They are waste of time and resources.
- (iii) They are not helpful in making the learning process effective.
- (iv) They are positive and psychological initiative to prepare the students for learning.

- a. (i), (iv)
 - b. (i), (ii)
 - c. (iii), (iv)
 - d. (ii), (iii)
-

26. A teacher can help the students cope with anxiety: **(+1)**

- a. By giving them severe punishment

- b. By offering rewards
- c. By telling them to do repeated practice through recall
- d. By talking to them about their feelings and helping them

27. How can teachers encourage children to become intrinsically motivated learners? (+1)

- a. By praising high achievers
- b. By punishing low achievers
- c. By promoting them to copy the teacher
- d. By inculcating a sense of joy in learning

28. When Zafar asks his middle school students – Today, what did you learn about how you learn? What process is he encouraging? (+1)

- a. Conditioning
- b. Imitation
- c. Memorization and recall
- d. Metacognition

29. **Assertion (A):** A teacher shares with her students how to approach a problem by going through all the steps of problem solving. (+1)

Reason (R): Think-aloud demonstration to students is an effective teaching strategy.

Choose the correct option:

- a. Both (A) and (R) are true and (R) is the correct explanation of (A).
- b. Both (A) and (R) are true but (R) is not the correct explanations of (A).
- c. (A) is true but (R) is false.
- d. Both (A) and (R) are false.

30. **Assertion (A):** A child's emotional state effects her performance in school.

(+1)

Reason (R): Cognition and emotions are inter-related.

Choose the correct option:

- a. Both (A) and (R) are true and (R) is the correct explanation of (A).
- b. Both (A) and (R) are true but (R) is not the correct explanation of (A).
- c. (A) is true but (R) is false.
- d. Both (A) and (R) are false.

Your Personal Exams Guide

Mathematics and Science

31. When we subtract one from the four digit least number, we get: (+1)

- a. The three digit least number.
- b. The three digit greatest number.
- c. The four digit greatest number.
- d. A three digit number with unit digit 1.

32. While teaching Class VI students, teacher explains that: (+1)

$8 + 7 =$ A Whole Number

$8 \times 7 =$ A Whole Number

$\frac{7}{8} =$ Is not a Whole Number

Which property he/she explaining this way?

- a. Additive inverse property
- b. Multiplicative inverse property
- c. Closure property
- d. Associative property

33. The least number which can be written in the form of $n(n + 1) (n + 3)$, where n is a natural number, is: (+1)

- a. 6
- b. 8

c. 7

d. 3

34. If we multiply a fraction by itself and divide the product so obtained by its reciprocal, then the fraction so obtained is $18\frac{26}{27}$. The original fraction is: (+1)

a. $2\frac{2}{3}$

b. $\frac{8}{27}$

c. $1\frac{1}{3}$

d. $2\frac{5}{7}$

35. If $\frac{4}{3}$ of the difference of $2\frac{1}{4}$ and $1\frac{2}{3}$ is added to $\frac{1}{2}$ of the difference of $2\frac{1}{3}$ and $1\frac{2}{7}$, then result is : (+1)

a. $\frac{63}{82}$

b. $\frac{82}{63}$

c. $-\frac{63}{82}$

d. $-\frac{82}{63}$

36. The curved surface area of a right circular cylinder is one-third of its total surface area. If base radius of the cylinder is 8 cm, then volume of the cylinder (in cm^3) is : (+1)

a. 256π

b. 128π

c. 288π

d. 144π

37. The inner circumference of a 7 m wide circular race track is 440 m. Then, the radius of the outer circle is (Use $\pi = \frac{22}{7}$) : (+1)

a. 63 m

b. 67 m

c. 77 m

d. 79 m

38. The areas of the curved surface and the base of a right circular cylinder are 'a' sq.cm and 'b' sq.cm respectively. The height of the cylinder (in cm) is : (+1)

a. $\frac{22a}{\sqrt{\pi b}}$

b. $\frac{a\sqrt{b}}{2\sqrt{\pi}}$

c. $\frac{a}{2\sqrt{\pi b}}$

d. $\frac{a\sqrt{\pi}}{2\sqrt{b}}$

39. Which of the following is a trinomial ? (+1)

a. $3x^2 + 7$

b. $x^3 + 10$

c. $3x^2 + 3x + 7$

d. $3x^3 + 3x^2 + 3x + 3$

-
40. The denominator of a rational number is greater than its numerator by 7. If the numerator is increased by 20 and the denominator is decreased by 3, the number obtained is $\frac{4}{3}$. Then, the rational number is : (+1)

a. $\frac{51}{44}$

b. $\frac{44}{51}$

c. $\frac{13}{20}$

d. $\frac{4}{11}$

-
41. On selling an article for Rs. 3290, there is a loss of 6%. Then, cost price of the article is : (+1)

a. Rs. 3230

b. Rs. 3350

c. Rs. 3490

d. Rs. 3500

-
42. If sum of the expressions $-3x^3y^2 + 2x^2y^3$ and $-5y^4 - 3x^2y^3$ is subtracted from $x^3y^2 + x^4 + x^2y^3 + y^4$, then the coefficient of y^4 in the result is : (+1)

a. 6

b. -6

c. 4

d. -4

43. $\frac{15(x^2-2x-15)}{25(x+3)(x^2-25)}$ is equal to : (+1)

a. $\frac{3}{5}(x+5)(x-3)$

b. $\frac{3}{5}(x-5)(x+3)$

c. $\frac{3}{5(x-5)}$

d. $\frac{3}{5(x+5)}$

44. Which of the following is a Pythagorean Triplet, whose one member is 12 ? (+1)

a. 8, 12, 16

b. 12, 35, 37

c. 12, 35, 38

d. 12, 35, 39

45. How many edges does a polyhedron with 8 faces and 12 vertices have? (+1)

a. 14

b. 16

c. 18

d. 22

46. Which of the following is true in case of an isosceles trapezium? (+1)

- a. Only two adjacent sides are of equal length.
- b. Only parallel sides are of equal length.
- c. Only non-parallel sides are of equal length.
- d. Both (1) and (3).

47. Number of degrees ($^{\circ}$) in three and one-half of a right angle is : (+1)

- a. 285
- b. 315
- c. 295
- d. 305

48. If the angles of a quadrilateral are in the ratio 1 : 2 : 3 : 4, then what is the measure of the greatest angle of the quadrilateral? (+1)

- a. 72°
- b. 135°
- c. 144°
- d. 162°

49. If the mean of 10 numbers is 96 and one of the numbers is 150, then what is the mean of the remaining nine numbers? (+1)

- a. 60
- b. 75
- c. 81
- d. 90

50. If a dice is thrown, then what is the probability of getting a prime number? (+1)

- a. $\frac{3}{5}$
- b. $\frac{1}{2}$
- c. $\frac{2}{3}$
- d. $\frac{1}{3}$

51. The factors of a trinomial expression can be: (+1)

- (A) Number
- (B) Variable
- (C) Expression
- (D) Zero

Choose the correct option

- a. (A), (B) and (D)
- b. Only (D)
- c. (A) and (D)
- d. (A), (B) and (C)

52. According to National Curriculum Framework 2005, which among the following is/are appropriate as a part of higher aims of teaching mathematics? **(+1)**

- (A) Developing numeracy skills
- (B) Developing ability to handle abstractions in mathematics
- (C) Developing right attitude for problem solving

Choose the correct option.

- a. (A) and (B)
- b. (A) and (C)
- c. (B) and (C)
- d. Only (C)

53. Which of the following teaching-learning resources can be used for helping visually- challenged students in a mathematics classroom? **(+1)**

- (A) Taylor's abacus
- (B) Computer
- (C) Geogebra

Choose the correct option

- a. (A) and (B)
- b. (A) and (C)
- c. (B) and (C)
- d. Only (A)

54. Which of the following illustrates a "Constructivist" classroom for learning of spatial quantities like area and volume of solid shapes? (+1)

- a. Teacher using PowerPoint presentation of various formulae to teach the concept of area and volume
- b. Teacher showing animated videos of 3-D shapes to students
- c. Teacher brings in solid shapes to the class and let children to touch them while she/ he writes the formulae on the black board
- d. Teacher brings in solid shapes, graph sheets and other measuring devices and allows learners to explore the various formulae as far as possible

55. Read the following table: (+1)

Temperature °C	-5	26	35	-2	18
City	Shimla	Bangalore	Delhi	Kashmir	Himachal

Which of the following Mathematical concept/concepts may be taught using the above table?

- (A) Data Handling
- (B) Algebraic Expressions
- (C) Integers
- (D) Square and Square roots

Choose the correct option:

- a. Only (A)

- b. (C) and (D)
 - c. (A) and (C)
 - d. (B) and (D)
-

56. Which of the following least justifies the use of open-ended tasks in mathematics? (+1)

- a. It develops conceptual understanding
 - b. It gives opportunity for multiple answers
 - c. It takes time to solve open-ended questions so can be given in homework
 - d. Students get excited by doing something out-of-the-box
-

57. Which is the best way to represent a large numerical data set pertaining to frequency distribution for displaying smaller changes in a trend over a time? (+1)

- a. Bar Graph
 - b. Line Graph
 - c. Pie - Chart
 - d. Pictograph
-

58. At primary level, tests in mathematics should NOT focus on : (+1)

- a. Student's understanding of mathematical procedures
- b. Student's conceptual knowledge

- c. Real life Application of concepts
 - d. Student's ability to solve complex questions
-

59. Kamal, a class VI student is not able to use the units of area and volume correctly. Which of the following strategy is most appropriate to help Kamal? **(+1)**

- a. Make him memorize the units of area and volume
 - b. Make him solve a lot of problems related to area and volume
 - c. Make use of real-life contexts where concepts of measurement of area and volume are used
 - d. Prepare a table showing the difference between area and volume and ask him to copy it
-

60. Problem solving strategies in Mathematics does not necessarily involve : **(+1)**

- a. Identifying and defining a problem
 - b. Selecting and designing possible solution using prior knowledge of mathematical concepts
 - c. Learning and rote memorising formulae to solve problems
 - d. Revise and redesigning the strategies
-

61. Which of the following is a set of oviparous animals ? **(+1)**

- a. Scorpion, snake, rat
- b. Frog, hen

- c. Rat, scorpion, penguin
 - d. Penguin, frog, kangaroo
-

62. Which of the following is / are asexual modes of reproduction in animals ? **(+1)**

- (A) Budding
 - (B) Binary Fission
 - (C) in - vitro fertilisation to produce test- tube babies
- a. (A) & (B)
 - b. (B) & (C)
 - c. (C) & (A)
 - d. (B) Only
-

63. Which of the following properties does an electroscope make use of to test whether an object is carrying charge or not? **(+1)**

- a. Like charges repel each other
 - b. Flow of charges constitutes an electric current
 - c. A glass rod acquires a positive charge on being rubbed with a piece of silk
 - d. There are two kinds of charges - positive charge and negative charge
-

64. Which of the following statements about force of gravitation is correct? **(+1)**

- a. It is a non-contact force

- b. It can be attractive as well as repulsive
- c. It is a unique force which only the earth possesses
- d. It is a strong force

65. A sample of water begins to freeze at -3°C at normal temperature and pressure. What can you say about its boiling point? (+1)

- a. It will boil below 100°C
- b. It will boil above 100°C
- c. It will boil at 100°C
- d. It will not boil

66. Given in the table below are the names of certain organs of digestive system, the juices they secrete and the food components they act on. Some entries have been left blank. Select the correct set of entries from the options provided. (+1)

Name of organ	Juice Secreted	Food component acted upon
Mouth	Saliva	_(i)___
Stomach	Digestive Juices	_(ii)___
Liver	_(iii)___	_(iv)___

- a. (i) – Fats, (ii) – Starch, (iii) – Insulin, (iv) – Sugars
- b. (i) – Proteins, (ii) – Fats, (iii) – Digestive juice, (iv) – Starch
- c. (i) – Starch, (ii) – Proteins, (iii) – Bile, (iv) – Fats
- d. (i) – Proteins, (ii) – Starch, (iii) – Bile, (iv) – Sugars

67. Identify the set of Kharif crops from among the following. (+1)

- a. Paddy, cotton, groundnut
- b. Maize, pea, mustard
- c. Pea, gram, wheat
- d. Soyabean, pea, gram

68. Read the following table about average temperature of an Indian city. (+1)

	Jan	Feb	Mar	Apr	May	June	July
Max Temp.	20° C	23.5° C	29.8° C	36.7° C	39.6° C	38.2° C	26.6° C
Min Temp.	7.7° C	10.6° C	15.2° C	21° C	25.3° C	27.6° C	33.7° C
Precipitation / Rainfall (mm)	23	33	20	14	20	74	208

To which of the following cities can the above chart belong?

- a. New Delhi
- b. Chennai
- c. Bikaner
- d. Shimla

69. A teacher explains the structure and functioning of human eye by invoking the analogy of a camera which the students are already familiar with. In which of (+1)

the following aspects does this analogy not hold?

- a. The eye forms an erect image where as the camera forms an inverted image
- b. The camera has a concave lens whereas the eye has a convex lens
- c. The eye sees in three dimensions & while a camera sees in two dimensions
- d. The focal length of a human eye is fixed and cannot be adjusted even slightly

70. Match the following.

(+1)

Column A		Column B	
(A)	A metal that is not ductile at room temperature	(I)	graphite
(B)	A non-metal that is a good conductor of electricity	(II)	phosphorus
(C)	A metal that is soft and can be cut with a knife	(III)	zinc
(D)	A non-metal that catches fire when exposed to air	(IV)	iodine
(E)	A lustrous non-metal	(V)	sodium

- a. (A) - (V), (B) - (IV), (C) - (III), (D) - (I), (E) - (II)

- b. (A) - (III), (B) - (I), (C) - (V), (D) - (II), (E) - (IV)
 - c. (A) - (II), (B) - (IV), (C) - (I), (D) - (V), (E) - (III)
 - d. (A) - (I), (B) - (V), (C) - (II), (D) - (III), (E) - (IV)
-

71. A ball is thrown vertically upwards in the air. Identify the force (s) acting on it. **(+1)**

- a. gravitational force only
 - b. gravitational force & air resistance
 - c. gravitational force, air resistance & force of propulsion exerted by the thrower
 - d. air resistance only
-

72. Read the following sentence and identify the set of words which would correctly fill the blanks in the given order. **(+1)**

A person suffers from ____ (i) ____ if his/her ____ (ii) ____ do not produce the hormone ____ (iii) ____ in sufficient quantities.

- a. (i) goitre (ii) pituitary gland (iii) adrenalin
 - b. (i) goitre (ii) pancreas (iii) insuli
 - c. (i) diabetes (ii) thyroid gland (iii) thyroxine
 - d. (i) diabetes (ii) pancreas (iii) insulin
-

73. Which of the following is a set of substances that are acidic in nature? **(+1)**

- a. Vinegar, lemon juice, gastric juice, curd

- b. Baking soda, gastric juice, shampoo, toothpaste
- c. Calamine lotion, lemon juice, vinegar, toothpaste
- d. Curd, baking soda, gastric juice, shampoo

74. Read the following statements carefully and select the correct option. (+1)

Assertion (A) : Gases diffuse very fast into other gases.

Reasoning (R) : Gas particles move about at high speed.

- a. Both (A) & (R) are true and (R) is the correct explanation of (A)
- b. Both (A) & (R) are true but (R) is not the correct explanation of (A)
- c. (A) is true but (R) is false
- d. Both (A) & (R) are false

75. Identify the correct statements from the following. (+1)

(A) Burning of wood is a physical and irreversible change.

(B) Boiling of water is a chemical and reversible change.

(C) Grinding wood into sawdust is a physical and irreversible change.

- a. Only (A)
- b. (A) & (B)
- c. (B) & (C)
- d. Only (C)

76. At room temperature:

(+1)

Density of fresh water = 1 g/cm^3

Density of sunflower oil = $.92 \text{ g/cm}^3$

Density of Alcohol = $.8 \text{ g/cm}^3$

Use the above information to identify the correct statement(s) from the ones given below.

(A) An object that floats in alcohol will surely float in sunflower oil.

(B) An object that floats in sunflower oil will surely float in fresh water.

(C) An object that floats in fresh water will surely float in alcohol.

a. (A) & (B)

b. (B) & (C)

c. Only (C)

d. (A), (B) & (C)

Your Personal Exams Guide

77. A train leaves Kanpur on 1st September at 15 : 50 hours and reaches Bangalore on 3rd September at 07 : 10 hours. Find the average speed of the train given that the distance between Kanpur & Bangalore is 2182 km.

(+1)

a. 52 km/h

b. 55.5 km/h

c. 64.2 km/h

d. 68.2 km/h

78. Read the following paragraph and select the option that would correctly fill the blanks in the given order. (+1)

When a disease - carrying microbe enters our body, the body produces ____ (i) ____ to fight the invader. If dead or weakened microbes are introduced in a healthy body, the body fights and kills them producing these. This is how a ____ (ii) ____ works to prevent diseases like ____ (iii) ____.

- a. Antigens, antibiotic, diabetes
- b. Antibodies, antibiotic, arthritis
- c. Antibodies, vaccine, tuberculosis
- d. Antibiotics, vaccine, arthritis

79. Which of the following is prepared by using wood pulp ? (+1)

- a. Acrylic
- b. Nylon
- c. Polyester
- d. Rayon

80. Which of the following are obtained from Petroleum ? (+1)

- (A) CNG
- (B) LPG
- (C) Diesel
- (D) Coal Gas

- a. (A) & (B)
 - b. (A) & (C)
 - c. (B) & (C)
 - d. (A) & (D)
-

81. What kind of questions would NOT be recommended for framing an open book test? **(+1)**

- a. Application of theoretical principles to unfamiliar situations
 - b. Long derivations of standard formulae
 - c. Open ended questions
 - d. Solving innovative problems
-

82. Which of the following is NOT an objective of conducting a group discussion on socio-scientific issues in a science class? **(+1)**

- a. To encourage students to evaluate a subject from multiple perspectives
 - b. To develop in students the habit of framing evidence-based arguments
 - c. To lead all students to the clearly - defined correct resolution of the issues
 - d. To demonstrate the social-context of science
-

83. Which of the following is the best strategy to introduce class 8 students to the concept of vibration as the cause of sound? **(+1)**

- a. Engage students in sound producing activities like plucking a stretched rubber – band
 - b. Explain the process of sound production with the help of a diagram
 - c. Introduce the concept of sound as a longitudinal wave
 - d. Define the characteristics of a sound wave
-

84. Which of the following would be the most appropriate strategy to introduce the concept of buoyant force? (+1)

- a. Stating the definition of buoyant force
 - b. Explaining the essence of Archimede's Principle
 - c. Engaging students in catch and throw activities
 - d. Engaging students in floating and sinking activities
-

85. While teaching about cells to his class 8 students, a teacher gives examples of bricks just as buildings, though built of similar bricks, have different designs, shapes, and sizes, so also the cells are basic structural units of living organisms. Which pedagogic device is the teacher using? (+1)

- a. Analogy
 - b. Argument
 - c. Thought experiment
 - d. Virtual experiment
-

86. Which of the following purposes is least likely to be served through organisation of science fairs in schools ? (+1)

- a. To bring the schools closer to community and society
- b. To provide an opportunity to students to demonstrate their innovative ideas
- c. To provide a platform for exchange of ideas between different students and institutions
- d. To identify the specific conceptual difficulties of individual students

87. A teacher wanted her students to investigate the effect of length of a simple pendulum on its time- period. She guided her students to set up an experiment based on varying the factor of interest while keeping the other factors constant across situations. Which of the following statements would be incorrect about the experiment they set up for the purpose ? (+1)

- a. Length of the pendulum would be an independent variable
- b. The time-period would be a controlled variable
- c. Mass of the bob would be a controlled variable
- d. The time period would be a dependent variable

88. A teacher wants to help her students to make a connection between the shapes of beaks of different birds and the type of food they eat which of the following strategies would be the most suitable for this purpose? (+1)

- a. Showing the diagrams of the beaks of different birds
- b. Asking students to refer to an encyclopedia on birds

- c. Visiting a bird sanctuary and asking students to make observations
 - d. Organizing a guest lecture on birds by an expert
-

89. Which of the following statements does NOT match with our present understanding of organisation of science curriculum? **(+1)**

- a. At the primary stage, science and social science should be integrated as 'Environmental studies'
 - b. Science content at upper primary stage should be regarded as a diluted version of secondary school science
 - c. At the secondary stage, the students should be engaged in learning science as a composite discipline
 - d. At the higher, secondary stage science should be introduced as separate disciplines
-

90. A student puts some iron nails in a beaker containing copper sulphate solution and writes the following statements in her note book after some time. **(+1)**

- (A) The colour of solution changes from blue to pale green.
- (B) The brown coating gets formed on the iron nails.
- (C) Iron displaces copper from its solution.
- (D) Copper is less reactive than iron.

Classify the above statements as observations or inferences.

- a. (A) & (B) are observations; (C) & (D) are inferences
- b. (A), (B), (C) are observations; (D) is an inference

- c. All are observations
- d. (A) is observation; (B), (C) & (D) are inferences

English – I

91. Read the passage given below and answer the question/ complete the statement that follow by choosing the correct option out of the given one. (+1)

Amy was the eldest child of a large family. At the age of fifteen they put her out to work at Greenland Farm. I attended Mrs. Smith, the landlord's wife, and saw that girl there for the first time. Mrs. Smith, a gentle person with a sharp nose, made her put on a black dress every afternoon. I don't know what induced me to notice her at all. There are faces that call for attention by a curious lack of something particular in their appearance.

The only peculiarity I perceived in her was a slight hesitation in her speaking, a sort of preliminary stammer which passes away with the first word. When sharply spoken to, she was apt to lose her head at once; but her heart was the kindest'. She had never been heard to express a dislike for a single human being, and was tender to every living creature. She was devoted to Mrs. Smith, to Mr. Smith, to their dogs, cats; and as to Mrs. Smith's grey parrot, its peculiarities exercised upon her a positive fascination. Nevertheless, when that outlandish bird, attacked by the cat, shrieked for help in human accents, she ran out into the yard, stopping her ears, and did not prevent the crime.

For Mrs. Smith this was another evidence of her stupidity; on the other hand her lack of charm, in view of Mr. Smith's well-known, unbecoming vulgar nature, was a great recommendation. Her short-sighted eyes would swim with pity for a poor mouse in a trap. It is very true that there is no kindness of heart without a certain amount of imagination. She had some. She had even more than necessary to be moved by pity.

Which of the following statements is NOT TRUE?

- a. Amy belonged to a poor family.
- b. She was a farm worker.
- c. She showed a slight lack of confidence.

d. She was a beautiful young woman.

92. Read the passage given below and answer the question/ complete the statement that follow by choosing the correct option out of the given one. (+1)

The word opposite in meaning to the word 'tender' as used in the passage is:

- a. soft
- b. difficult
- c. hard
- d. old

100. Read the extract given below and answer the question/ complete the statement that follow by choosing the most appropriate option out of the given one.

(+1)

Ah! then at times I drooping sit,
And spend many an anxious hour;
Nor in my book can I take delight,
Nor sit in learning's bower,
Worn thro' with the dreary shower.
How can the bird that is born for joy
Sit in a cage and sing?

How can a child when fears annoy,

But droop his tender wing,

And forget his youthful spring?

How shall the summer arise in joy,

Or the summer fruits appear?

Or how shall we gather what griefs destroy

Or bless the mellowing year,

When the blasts of winter appear?

Who is the speaker in these lines?

- a. a school going child
- b. a bored school teacher
- c. a fruit gatherer
- d. the parent of a school going child

101. Read the extract given below and answer the question/ complete the statement that follow by choosing the most appropriate option out of the given one. (+1)

Ah! then at times I drooping sit,

And spend many an anxious hour;

Nor in my book can I take delight,

Nor sit in learning's bower,
Worn thro' with the dreary shower.
How can the bird that is born for joy
Sit in a cage and sing?
How can a child when fears annoy,
But droop his tender wing,
And forget his youthful spring?

How shall the summer arise in joy,
Or the summer fruits appear?
Or how shall we gather what griefs destroy
Or bless the mellowing year,
When the blasts of winter appear?

The extract is full of:

- a. anxiety
- b. dreariness
- c. pathos
- d. joy

102. Read the extract given below and answer the question/ complete the statement that follow by choosing the most appropriate option out of the (+1)

given one.

Ah! then at times I drooping sit,

And spend many an anxious hour;

Nor in my book can I take delight,

Nor sit in learning's bower,

Worn thro' with the dreary shower.

How can the bird that is born for joy

Sit in a cage and sing?

English – II

151. Read the passage given below and answer the question/complete the statement that follow by choosing the correct option out of the given one. (+1)

The Central Cottage Industries Emporium in New Delhi was crucial in bringing about this awareness of quality goods, for it displayed a range of the very best of handicrafts. It helped impart a sense of pride in the craft tradition and cultivate a taste for folk art and craft. It also attracted a large number of foreign buyers, who were anxious once again to import Indian goods for markets in Europe and the U.S.A.

The growing demand for crafts at home and abroad activated craft centres all over India. Craftsmen were able to get work all the year round and many of those who had left their traditional fields of work returned to pursue these. The Handicrafts and Handloom Export Corporation set up a number of sales shops called, SONA, which exhibited the best of crafts and helped to build up the market for crafts abroad.

The production base built through multipronged approach fostered the image of crafts abroad. Export promotion policies, aimed at encouraging private trade led to rapid growth of export in handicrafts and the creation of employment opportunities for a large number of people.

India became a source of inspiration for other Asian and African countries and many followed the Indian example. World Crafts Council was set up with its headquarters in New York with help from Kamala Devi and member countries spanned the world. This built up an awareness of crafts on a global scale. Today, some of the smaller countries like South Korea, Taiwan, and Hongkong have developed their craft exports to an extent that India has in some cases been outstripped. The export figures show that India is lagging far behind in most commodities, except in case of gems and jewellery.

C.C.I.E. in New Delhi could not :

- a. encourage the best handicrafts

- b. showcase a large variety of them
- c. make craftsmen feel proud of their work
- d. make a large number of foreigners learn handicrafts

152. Read the passage given below and answer the question/complete the statement that follow by choosing the correct option out of the given one. (+1)

It also attracted a large number of foreign buyers, who were anxious once again to import Indian goods for markets in Europe and the U.S.A.

The growing demand for crafts at home and abroad activated craft centres all over India. Craftsmen were able to get work all the year round and many of

those who had left their traditional fields of work returned to pursue these. The Handicrafts and Handloom Export Corporation set up a number of sales shops called, SONA, which exhibited the best of crafts and helped to build up the market for crafts abroad.

The production base built through multipronged approach fostered the image of crafts abroad. Export promotion policies, aimed at encouraging private trade led to rapid growth of export in handicrafts and the creation of employment opportunities for a large number of people.

India became a source of inspiration for other Asian and African countries and many followed the Indian example. World Crafts Council was set up with its headquarters in New York with help from Kamala Devi and member countries spanned the world. This built up an awareness of crafts on a global scale. Today, some of the smaller countries like South Korea, Taiwan, and Hongkong have developed their craft exports to an extent that India has in some cases been outstripped. The export figures show that India is lagging far behind in most commodities, except in case of gems and jewellery.

Study the following statements:

(A) India is now facing competition from some small countries.

(B) Even then, India is the largest exporter of handicrafts.

(C) Private trade in handicrafts has given jobs to many.

a. (A) and (B) are right but (C) is wrong

b. (B) and (C) are right but (A) is wrong

c. (C) and (A) are right but (B) is wrong

d. (A) is right but (B) and (C) are wrong

156. Read the passage given below and answer the question/complete the statement that follow by choosing the correct option out of the given one.

(+1)

The Central Cottage Industries Emporium in New Delhi was crucial in bringing about this awareness of quality goods, for it displayed a range of the very best of handicrafts. It helped impart a sense of pride in the craft tradition and cultivate a taste for folk art and craft. It also attracted a large number of foreign buyers, who were anxious once again to import Indian goods for markets in Europe and the U.S.A.

- a. follow
- b. guide
- c. lead
- d. ignore

159. Read the passage given below and answer the question/complete the statement that follow by choosing the correct option out of the given one.

(+1)

With a copy of the latest Malgudi Times rolled in his hand, Srinivas entered his home. His wife sat by the lamplight reading her novel. He held his latest copy to her with the remark: "I hope you will find something to interest you at least this week." She hastily opened it, ran her eyes through and put it away with: 'I will read it later,' and she went in to get his dinner ready.

She had accommodated herself to his habits fairly well now, and accepted his hours without much grumbling. But she was an uncompromising critic of his journal. She always glanced, through the copy he brought in and said: "Why don't you put in something to interest us?"

"If you keep on reading it, you will find it interesting," he said, and loathed himself for appearing to be so superior. He was never happy on the day his journal came out. He ate his dinner silently ruminating over it. His wife stooped over his leaf to serve him. She had fried potato chips in ghee for him and some cucumber soaked in curd; she had spent the day in the excitement of preparing these and was now disappointed to see him take so little notice of

them. She watched him for a moment as he mechanically picked up the bits and stuffed them in his mouth.

He was thinking: There is some deficiency in Malgudi Times. I wish I knew what it was. She watched him for a moment and asked: "Do you remember what you have just been eating?" Tell me what you have eaten off that corner". He looked at the corner of the leaf helplessly and answered. "Some fried stuff". "Yes__ what vegetable ?" " I am sorry, I was thinking of something else. Was it raw plantain ?"

Malgudi Times was published:

- a. everyday
- b. every week
- c. every fortnight
- d. every month

160. Read the passage given below and answer the question/complete the statement that follow by choosing the correct option out of the given one. (+1)

He was thinking: There is some deficiency in Malgudi Times. I wish I knew what it was. She watched him for a moment and asked: "Do you remember what you have just been eating?" Tell me what you have eaten off that corner". He looked at the corner of the leaf helplessly and answered. "Some fried stuff". "Yes__ what vegetable ?" " I am sorry, I was thinking of something else. Was it raw plantain ?"

Srinivas was mainly unhappy because :

- a. his wife wasted her time in reading novels.
- b. he thought his journal was not good enough.
- c. his wife was not a good cook.
- d. she always made noises in the kitchen.
