Q.25 In this question, a question is followed by two statements numbered (I) and (II). You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and decide the appropriate answer.
Among five trees, N, O, R, S and T each having a different height, which tree is the tallest?
(I) O is shorter than only one tree. O is taller than N but shorter than R.
(II) N is taller than T.

- Ans

1. Data in Statement II alone is sufficient to answer the question while data in statement I is not
2. Both statements I and II together are NOT sufficient to answer the question
3. Data in Statement I alone is sufficient to answer the question while data in statement II is not
4. Both statements I and II together (and not statement 1 alone or statement II alone) are sufficient to answer the question
